### House Numbers

(Continued from Page 1 A)

homes on Lehigh, Main Highway and Pioneer Avenue. This provision is made to take care of any possible extension of these short streets. The same numbers running all the way across the township along the same east and west lines. Such uniform numbering will be of great convenience to mailmen, delivery men and

friends seeking residents at specific numbers in the township.

All east and west streets in the township will have their point of origin at their intersections with the Main Highway. Thus Center street becomes East Center street east of the Highway and West Center street west of the Highway, and lowest numbers will start from the Highway.
