The light company has corrected the trouble.

Refunds on income taxes deducted from salaries, even of people making less than \$600 annually, are not automatic, warns the Internal Revenue Service. Students or other persons earning less than the minimum for required filing of income taxes, must file a return if they expect to recover tax deductions.

Deadline for filing is April 17, because April 15 falls on a Saturday. Tax-payers applying for refunds are advised to do it as soon as possible, before the peak load starts to accumulate.
