Faces Surgery Again

Theodora Fuller, the appealing little girl in the picture, needs prayers of the community. She will be admitted to Children's Hospital, Buffalo, N. Y. June 18, for important surgery. Crippled, and already having had several operations, she is nonetheless a happy child.

Her mother and her sister Pamela will be with her during the operation, but they will have to leave her in Buffalo.

Anybody wanting to send Teddy cards, may address them to the Children's Hospital, 130 Hodge Avenue, Buffalo.

The Dallas Post needs more information about this. A neighbor, Dorothy Brown, brought in the story on Saturday when there was a rush at the counter. There are a large number of Browns in the phone book, none of them Dorothy. None of the Fullers in the directory seem to be the right Fuller.

Everything You Expect In a Fine Washer . . . the **NEW MAYTAG AUTOMATIC** WITH THE REVOLUTIONARY **FILTER-AGITATOR**

The exclusive new Maytag Filter-Agitator is the most revolutionary change in agitator design since it was invented by Maytag. It provides increased washing action, positive distribution of detergent, and maximum lint removal. It's new, it's fabulous, and it's available only in Maytag.

MAXIMUM LINT REMOVAL
New full time filter is in the heart of the new Filter-Agitator, under water where the lint is, and is supplemented by Maytag's famous Lint Remover Tub. Surface lint as well as lint suspended in water is filtered out as water circulates through agitator. And there are no pans or trays to interfere with loading or unloading.

POSITIVE DETERGENT DISTRIBUTION
Detergent prevents discoloration and damage to fabric from heavy concentrations of undissolved detergent. Simply pour detergent in agitator cavity; circulating water dissolves it completely before it comes in contact with clothes. Big two cup capacity permits addition of water softener.

GREATER WASHING ACTION
Famous Maytag Agitator Action has been amplified by the pumping action of the new Filter-Agitator. Wash water circulated through the agitator is forced out through specially designed channels in the bottom, in swirling jet streams. Loosens even deep down dirt in seconds.

Plus THESE ADVANCED FEATURES

- Swift-Away Draining Action
- Cold Water Wash & Rinse
- Pushbutton Control
- Delicate Fabric Cycle
- Two Speed Action
- Automatic Water Level Control
- Water Temperature Control
- Safety Lid
