

SAVINGS AT ACME GREEN STAMPS

PRICES EFFECTIVE THRU SAT. JUNE 24 IN DALLAS & SHAVERTOWN ACMES ONLY.

Acme features frosted fish with that sea fresh flavor. The flavor and food value is sealed in by instant freezing at 40° below zero right on the boat, just minutes after it has been caught. There can be no loss of freshness and flavor due to long hauls at just average temperatures. Acme has over 50 different varieties to choose from. More and more people are convinced that "Frosted is Freshest." Take home some fresh frozen fish today, discover the difference yourself.
