**FROZEN IS FRESHEST**

Frozen Fish, because of the excellence of modern refrigeration, are better than fresh—TASTE—APPEAL—FOOD VALUE. Just as quick-freezing makes a great variety of fruits and vegetables available, it also makes possible the serving of many kinds of fish. Instant freezing at 40° below zero right on the boat, just minutes after it has been caught, gives you that matchless deep-sea goodness and ocean-fresh flavor in every serving of Acme's Frozen Fish and Seafood.
