## ALL VITAMINS FOOD SUPPLEMENTS ARE NOT ALIKE!

- Are Vitamin Products guaranteed by the Government?  
No. The Government does have regulations concerning all food, drug, and cosmetic products, including vitamin products, but the Government does NOT guarantee any vitamin product.
- Are all Vitamin Products of the same quality?  
No. Quality is dependent on purity of ingredients, manufacturing skill, and continuous control testing and vitamin assays from raw materials through every stage of manufacturing to the finished product. Your assurance of quality is "the honor and integrity of the maker."
- Are all vitamins uniformly stable?  
No. Some are acid, some alkaline. When combined in formulas, certain vitamins destroy others, unless the manufacturer has the experience and high degree of skill necessary to properly separate these vitamins, or minerals, and protect them one from the other.
- Does a long list of ingredients increase the value of a vitamin product?  
No. Some formulas on the market list as many as 43 ingredients including hay. In many cases, more than half of such ingredients have no established value in human nutrition.
- What is the best guarantee on a vitamin product?  
The name on the label. You cannot get a better guarantee than the name of a company who makes the drugs your doctor prescribes for your family. The reliability and reputation of such a company has been established on the dependability of its products.

When you buy vitamins, (Food Supplements) be sure they are made by an ethical Drug Manufacturer who will gladly supply a list of quality controls and assays upon request.
