

Heavy Hand-Hewn Beams

Recently destroyed by fire on Sutton's Creek, the Ernie Gay barn (whose title is still in his father Arthur's name) has hand-hewn beams twelve by twelve inches. For years it was used as a chicken house, where thousands of birds were raised.

Free Flags For Mexican War Vets

American flags may now be given free to drape the caskets of veterans of the Mexican Border Service as a result of a law passed by the 87th Congress.

The flag may be given to the next of kin or close friend of the deceased after the funeral, the VA official said.

Unlike veterans of the Spanish-American War, World War I, World War II and the Korean Conflict, no provision had existed up until now to furnish flags to those who had served on the Mexican Border just

prior to World War I.

Principal beneficiaries of the new law are an estimated 25,000 members of the federalized National Guard who were mobilized following the Presidential calls of May 9, and June 18, 1916.

Approximately 157,000 guardsmen served on the Mexican border, for six to nine months. An estimated 75 percent of these served subsequently in World War I.

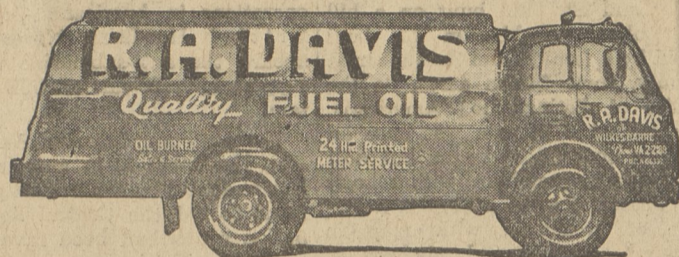

The VA has requested postmasters, who distribute the burial flags, to accept applications from the kin or close friends of these veterans of the Mexican Border Service.
