BE ON YOUR GUARD Women of Shavertown be on guard against furnace-checking door knockers. This correspondent was called to the door last week by a man claiming to be connected with a large furnace company. He wanted access to the furnace room for himself and a college-type partner. This was in order to check the condition of our furnace (it works fine). He was not asked to come and fumbled in his attempt to learn who lived in the home. The change of street names gave him an excuse to correct records he couldn't have had. When he was denied admittance, I received a look that was intended to show my complete ignorance of furnaces. It did remind me of the plight of the woman in Sweet Valley last year who had a painful experience with furnace checking door knockers. So, demand credentials if you have not ordered a reputable furnace man to check your heating system or make sure the man of the house is on hand to protect, if needed, the weaker sex.

May you and yours have the very merriest of all Christmases. See you next week.

JACKSON TOWNSHIP

Within a span of one week residents of Chase Road from Chase Corners to the Lake Silkworth Road were without protection on the highway, the State Highway Department not spreading ashes until after ten Sunday morning, although ice started to form Saturday night.

The Department maintains that this road is a "Secondary Road" and must wait until the main highways are ashed. If our "Tax Happy Governor" would place more men on the highways instead of overcrowding them in offices at Harrisburg and Wilkes-Barre, the taxpayers would get a better break. We would suggest that our citizens contact Representative Fred Shupnik and have him do something to alleviate the problem we have every time there is a snow or sleet storm.

At least the County had its section of the road well ashed this week and the Township Supervisors did a commendable job on the Township Roads.

Welcome to Mr. and Mrs. Fred Steinhau who have moved from Meadowcrest into the Jackie Culp home on Overbrook Avenue.

Ernest recently completed his boot training at Parris Island, and was transferred to Camp Geiger, Camp Lejeune, N. C. While at Parris Island eating in the Mess Hall, he noticed a recruit staring at him. Finally it dawned on him that the recruit in marine fatigues was none other than David Williams, a member of his 1961 graduating class at Lehman High School. These boys sure looked good to each other, as boot training in the Marines is really tough.
