Alma Mater Tomorrow an assembly will be held to decide upon the Alma Mater for our new school. We have received word that four numbers, written by the students themselves, will be sung and voted on. The selected one will become our new alma mater replacing the one written by Barbara Dana '53.

Boys' Chorus Miss Ohlman, our chorus supervisor, has begun the organization of a boys' chorus. All those interested have been asked to come out on Monday in Activity Period. One of the numbers they have begun to practice is "There Is Nothing Like A Dame" from the musical hit "South Pacific". Come on boys! Let's see more of you taking an interest.

College All students who are planning to enter college next fall, should make application immediately to the col-

leges of his choice. Art Movies Today members of the Art Class under the direction of Mrs. With-

ey, Art Supervisor, were presented with two films relating to particular techniques in art. The first one involved water color techniques, while the second stressed the modernistic uses of chalk. These were third and fourth of a series being presented by the Art department. Armed Forces Any Senior interested in joining the Armed Forces in the summer

of 1962, is advised to start applying in January or February. This early application and taking of tests will make you a good prospect for schools during the summer. Too many Seniors wait until April or May to make application and find most of the school quotas are filled for the months of June, July and August. This means waiting at least four months before you are eligible for a Service School and it eventually means a later discharge date.

LET'S HELP You read last week in this paper about Fred Hennebau's accident. We know all will contribute in some way to help him. Activities of all sorts are in the planning stage, but what about now? Why don't you drop Fred a card to put some cheer in his days. Even though he doesn't know you are here, I'm sure he would receive much pleasure from knowing that folks at home are thinking about him. He is in Geisinger Medical Center, Danville, Pa. Do it today!

F. T. A. Again F.T.A. members are doing something. Each teacher at Lehman Building has given permission to allow an F.T.A. member time to actually teach in a class.

Last week the Seniors started in the high school. Each member was assigned to a teacher in the field in which the student is interested. Each student made out a lesson plan, including the goal to be reached in each lesson, style of teaching to be used, and conclusions reached. Each student teacher gave an evaluation of his own work.

Five Seniors, Gloria Long, President of the Lehman Chapter, Linda Swelgin, Donna Lord, Marie Hard-

isky and Mary Ann Laskowski, attended a tea given by Delta Kappa Gamma at Hotel Sterling, Saturday. The speaker was Miss Esther Gross. She spoke on what qualities a teacher needs. The four main points were: a teacher needs a good firm education; a teacher must have humane growth and development; a teacher needs a complete mastery of teaching techniques and methods and a teacher must have an expert knowledge in one special field.

She explained the four regular fields in a normal school: primary, intermediate, junior and senior high. In addition are: the mentally retarded child; the crippled child; the emotionally disturbed child; the slow learning child; the trainable child; the blind and hard of hearing child and last, the very bright child.

Slides were shown of children in each category and the equipment needed to aid these children to find their place in society.
