

# Arthur Fiedler And Famous Pops Here This Friday

Ozan Marsh, pianist with Arthur Fiedler and The Boston Pops Tour Orchestra, will play Dimitri Kabalevski's Second Piano Concerto in G Minor, when College Misericordia's Theatre 3 presents the celebrated Orchestra at Irem Temple, Wilkes-Barre, Friday evening, at 8:30. This will be the first performance of the Kabalevski work to be heard in the Wilkes-Barre Area.

OZAN MARSH

Acknowledged as one of the leading interpreters of Chopin and Liszt, Marsh has been devoting his recital programs this season to piano compositions of these two masters.

A recent performance inspired this critical comment in the New York Herald Tribune: "With Ozan Marsh as piano soloist, the work was played for all it was worth. Mr. Marsh could hardly have captured its perfumed nuances with greater romanticism."

A Californian, descended from William the Conqueror and the old Anglo-Norman family of Ozanna, Marsh demonstrated his prodigious musical talents at an early age. His first teacher was Richard Buhlig, and at the age 15, Marsh was offered a full scholarship for study in Europe by Egon Petri.

Appearance of Boston Pops Tour Orchestra on College Misericordia's Theatre 3, is the Wilkes-Barre engagement of a 58-city tour of the U. S.

Organized by special arrangement with the Boston Symphony Orchestra, the Orchestra led by Arthur Fiedler will present a program of music for which this orchestra has become world-famous.

Mr. Fiedler's appearance on Theatre 3 will give his Wilkes-Barre audience the opportunity to see him conduct selections from his wide-ranging Boston Pops repertoire with the dynamic action and orchestral control which have won him international fame.

They were Betty Jean Davis, Glenda Williams, Judy Williams, Elfriede Hefft, Sally Moyer and Dorothy Eck. The new Alma Mater will be announced shortly.

**Wrestling**  
I am afraid that I must make an apology to all you wrestling fans. Elfriede and I don't know much about wrestling and haven't given it much publicity. Today I'd like to say that, even though our squad hasn't won very many meets, we are very proud of our boys and we plan to stick with them.

For the rest of the season our junior varsity cheerleaders will be cheering at all the meets. We hope that people will soon become more interested in wrestling and will give our boys support. They have three more meets; on February 10, 15 and 24 at Forty-Fort, Lake-Lehman and Coughlin respectively.

# Fourth Grade At Borough School Takes Lesson In Baking Bread

BY CHUCK LABERG

The fourth grade of Dallas Elementary School under direction of Mrs. Mohr, took up a most interesting study during the past week.

The class, while studying the Wheat Belt of the Middle West, became interested in seeing what happened to wheat before it became a loaf of bread.

On Monday morning they decided they would like to know something about bread and bread making. They felt they could learn more about the subject by working in small groups or committees. They appointed four chairmen. Scott Saffian was chairman of a group which did research work in the encyclopedia and other science books on "The History of Bread."

When the materials were gathered, illustrations were done by committee members and booklets were put together.

Other committees doing the same type work made booklets on "Yeast and How it Works." The committee chairman was Valerie Tag.

"From Wheat to Flour" committee chairman was Shirley Reese. "Bread and How it is Made", committee chairman Diane Reese.

They had a recipe for bread and on Friday they collected the necessary equipment and proceeded to make bread at school. They each took part in the preparations for making bread. After preparing, several hours were necessary for rising. Three loaves and a few buns were placed in the oven for forty-five minutes. Later we took out three brown loaves and

28 buns.

Each of the children received a slice of bread and a bun to take home wrapped in wax paper.

Editorial note: Dear Chuck: Did you "set a sponge" first, so your yeast would grow fast in a thin mixture of flour and water and fat, or did you mix in all your flour at one time, making a stiff dough? How many times did you let it rise, and how did you keep it warm enough to rise? Did you cover it while it was rising? Could you make a loaf of bread in your own kitchen? Bet it was fun.
