Leading Scorer

CLARK MOSIER

Susquehanna University's sensational junior guard Clark Mosier, son of Mr. and Mrs. Sheldon Mosier, Dallas, finished the hoop season in spectacular style, cracked three university scoring records by virtue of his 47-point bombardment of the bucket against Elizabethton last week.

Mosier, 6-2, 175 pounder, broke in succession, S. U.'s all-time season's scoring record of 522, season's field goal record of 208, and total career record of 1401. Ranked among the top-ten small college scorers in the nation with a 28.3 average on the basis of 566 points in 20 games, the Westmoreland High grad also tied the single game high of 47 set previously by himself earlier in the season.

With one entire season of play remaining for Mosier, a total of 1406 points under his belt, and an increased cage schedule on tap for 1962-63, there is a good chance that S. U.'s versatile guard can crack the ranks of the 2,000 point club, perhaps the most elite in basketball college circles.

In addition, Mosier guided S. U. to its finest winning percentage in university cage history as the Crusaders compiled a fine 15-5 mark.

No Sign Of Thaw At Harveys Lake

Ice is still fourteen inches thick at Harveys Lake, with no sign of thawing. Two zero nights last week cemented what little thawing had occurred during a brief mild spell.

Walbridge Leinthal, assistant chief of Police, says ice fishing is scheduled to stop March 15, one month before opening of trout season.

"And if the weather keeps on like this," he added, "folks might be fishing through the ice on April 15. There have been years when the ice lasted until the first part of April."

Bill Casterline's jeep still rambles around on the ice while Bill goes from one dock to another to free docks from encroaching ice.

Very little ice fishing has been done this year, because of the ab-
