MODERN ELECTRIC HOME HEATING

with
ROOM-BY-ROOM CONTROL

When you heat your home electrically, you can have a thermostat in every room, for that just-right temperature. Since each room's temperature is individually controlled, you can select the temperature to suit your needs. You can have your bedroom at 55 degrees and your living room at 72 degrees, if you want it that way.

This flexible control is not the only advantage of electric heat. It is also clean, safe, healthful, and modern.
