Editorially Speaking:

BECAUSE IT IS RIGHT

"To those peoples in the huts and villages of half the world struggling to break the bonds of mass misery, we pledge our best efforts to help them help themselves for whatever period is required—not because the Communists may be doing it, not because we seek their votes, but because it is right."

In no better words than "because it is right" could President Kennedy, in his Inaugural Address, have reaffirmed the reaction of Americans to the needs of the hungry, homeless and destitute millions throughout the

Nor could he have expressed better the basic traditional motivation of our people to relieve suffering among their neighbors either at home or abroad.

The great voluntary overseas relief organizations of our religious faiths-Protestant, Catholic and Jewishare currently engaged in their annual appeals for funds with which to carry on their ministries among those stricken by disasters, by malnutrition, by political displacement and impoverishment, by flood, famine, disease, poverty and ignorance.

Because it is right, millions of Americans will respond to these appeals on Sunday, April 1—Protestants through "One Great Hour of Sharing" observances in Protestant churches, and Catholics through "The Bishops' Relief Fund" appeal in Catholic churches, while our national community will be emphasizing the United Jewish Appeal for funds to aid refugees and others in need abroad.

Through these efforts, the traditional compassion of Americans for those less fortunate than themselves will live in deeds throughout the year.

Through them, hundreds of millions of pounds of food, clothing and medicines, including U.S. Governmentdonated surplus commodities, will be distributed free to the hungry, homeless and destitute.

Orphanages, schools and hospitals, tuberculosis and other health projects will be supported, programs of resettlement and constructive development maintained, agricultural, vocational and other educational projectsgiving knowledge and new skills-will be carried on, guiding hundreds of thousands to self-sufficiency. All this "because it is right."

Keeping faith with those in need—each through his own faith-Americans will share generously and gladly.

Barnyard Notes

I shall never forget Ray Shiber and the many happy hours we spent on long Thursday evenings discussing incidents of the Civil War while he made the Chauncey Wing mailing machine hum as he stamped the yellow address on The Dallas Post.

Ray Shiber knew the Civil War as few learned college professors did, and he didn't get it all out of books. During his boyhood he got, at first hand, much of his information from the men who had dodged the minie balls and who had stopped some of them. Then he checked their stories by spending hours on the battlefields himself. He knew Gettysburgh, Chancellorsville, Fredericksburg and

Antietam as intimately as some of the generals who fought there, for he spent more time walking over the fields, seeking out Union and Confederate veterans alike to discuss with them some little known incident of the conflict.

Then this self-taught student, with little formal education, but with a zest for facts that is common to all scholars, would turn to the Napoleonic Wars and the campaigns of Napoleon and his marshals in order to better understand the strategy and tactics used by Southern and Union Generals. "Lee was a fool", I have heard him say, "to send massed in-

fantry (Pickett's Charge) across open fields against massed artillery. Napoleon had learned that it couldn't be done!" and he would cite the battle and the action and the Marshal who had learned it. At such times he would turn from his work, mailing machine held aloft, and sputter out incident after incident, date, hour, corps,

men to useless slaughter. As the words came tumbling out, he might not pronounce the general's name correctly or use college English but there was no doubt in anyone's mind about the facts. He had them.

division, brigade and regiments where Union generals had led their

I have often dropped downstairs to chat with him after pouring over some little known incident in Freeman's four-volume "R. E. Lee" or the three-volume "Lee and His Lieutenants" or Williams "Lincoln Finds A General", facts fresh in mind, to catch Ray on some controversial point. I never caught him off guard. He would take up the issue, embellish it, give me the opinions of two or three authorities and his own conclusions and leave me standing there amazed at his knowledge and memory.

No I shall never forget this kindly, gentle man; his enthusiasm and zest for whatever he undertook. Any Rebel who had the temerity to place the responsibility for the War Between the States at a session of the Civil War Round Table also felt the flashes of fire that sparked from his bright eves.

"You know who was to blame" he would say. "It was those Southerners who were too lazy to work, and too willing to fight. It was slavery. That's what it was." And they all loved him, Yankee and Rebel alike.

100 Years Ago This Week...in THE CIVIL WAR

(Events exactly of years ago his week in the Civil War-told in the language and style of today.) Pinkerton on Pan

WASHINGTON, D.C.—April 1—Criticism is mounting over detective Allan Pinkerton's operations of the North's intelligence service. Latest grumbles followed disclosure that defenses by which the South has held Bull Run, or Manassas, scene of the first battle of the conflict, were vastly overestimated. After the recent southern withdrawal, Union scouts discovered that most of the "guns" ringing Manassas actually were shaved logs, painted black. In photo above, Pinkerton is seen seated at rear. (Library of Congress).

"It's Operation Saw" At New Madrid, Mo.

NEW MADRID, Mo.—April 2—Union military and naval leaders today expressed confidence that Island No. 10, strategic Mississippi River stronghold of the Confederates, would fall within 48 hours. A fleet of riverboats headed

by the Carondolet, under command of Flag Capt. Henry Walke, aided by troops of the battle-hardened 42d Illinois regiment under Col. George W. Roberts is poised for an assault on the The Carondolet has been outfitted to withstand the fire of the five gun emplacements on Island No. 10 and the four op-

posite the island on the main-HAWSERS and chain cables have been placed around the pilot house; a coal barge laden with coal and hay has been lashed to the craft's port side, as a rare type of floating armor; a variety of protective materia

has been lashed to the ship's In an operation thought unprecedented in modern

warfare, Union army engineers under Col. J. W. Bissell are engaged in sawing out trees blocking the channel above the island.

Some 600 men are involved in

this tricky work, according to Col. Bissell. It involves cutting a canal through two miles of swampy marshland studded with trees, thus providing a afer method of approach to the island. MEN ON RAFTS are using saw-rigs to cut the trees at a minimum depth of four and a half feet below the surface.
