Here's good savings news from WYOMING NATIONAL BANK

Every Day Interest builds savings faster!

"Every Day Interest" means your savings earn interest every day—from day of deposit to day of withdrawal.

IT ALL ADDS UP . . .

there's no loss of interest on money withdrawn during quarter. Interest is earned on every dollar from the day of deposit to the day of withdrawal . . . on savings account balances for \$5 to \$100,000 . . . provided the account remains open to the end of the quarter. Interest, at the annual rate of 3%, is compounded and credited every three months.

33 grace days in each quarter. Money you deposit during the first ten days of each month earns interest from the first day of the month plus a three-day grace period for withdrawals at the end of each quarter.

OTHER SAVINGS ACCOUNTS
With many other savings accounts, you lose interest on money you withdraw in the middle of an interest period. In fact you lose all the interest it has earned since the beginning of the period.

WYOMING NATIONAL SAVINGS ACCOUNTS
At Wyoming National, as long as there's a balance in your account at the end of the period, you get full interest on your savings every day . . . yes, right from the day of deposit to day of withdrawal.
