# Addison Resigns As Y Secretary

### Will Direct Physical Education, Athletics

Robert A. Addison, executive secretary of the Back Mountain Branch YMCA, tendered his resignation to the Board of Management at its monthly meeting, June 25.

He will be assistant professor and Director of Physical Education and Athletics at Adirondack Community College, Hudson Falls, N. Y., assuming his new duties in September.

At Adirondack, the newest of the 21 Community Colleges in the State of New York, Addison will organize, develop and administer the total physical education program. His duties will include coaching the basketball team.

He will draw up specifications for the physical education facilities and equipment for the new \$4 million campus which will be started this fall.

Classes in trampoline, tumbling add other physical education activities for elementary youth and classes in wrestling and Judo were held this past year for high school boys.

Addison will conclude his services with the Back Mountain YMCA at the close of the 1962 Day Camp which starts on Monday.

Prior to coming to the Back Mountain YMCA, Addison taught and coached at State Teachers College, Paterson, New Jersey, Bates College, Lewiston, Maine, and Doane College, Crete, Nebraska.

He earned his BA degree from Oberlin College and his MA degree and Ed. S. certificate from New York University.

### Tommy Edwards Enjoys His Ride In Helicopter Over The Valley

Here is the first hand account of an aerial scenic helicopter ride awarded Tommy Edwards, son of Mr. and Mrs. Donald Edwards, Perrin Avenue, Shavertown, at the recent Shavertown PTA Spring Fun Festival.

Making the trip with Tommy Edwards, son of Mr. and Mrs. Donald Edwards, Richard and sister, Joan, Tommy writes:

We were in flight at 3:50 p. m. and landed at 4:30 p. m. at Forty Fort airport.

We followed the Susquehanna River at an altitude of 2600 feet, turned at the North Street bridge and flew over Public Square, Wilkes-Barre, at an altitude of 3200 feet.

We circled the Square several times and then headed for the Back Mountain over the Larksville Mountain.

At Shavertown we circled our home on Perrin Avenue and then headed for Huntsville Dam and portions of Harveys Lake. We then followed the Harveys Lake Highway to Kingston, crossed the Avenue and again followed the river back to the airport.

Public Square, Wilkes-Barre, appeared at 3000 feet to be about equal to a two-inch square. The Susquehanna River could be seen warming its way between the valleys of Wilkes-Barre, Plymouth and Nanticoke.

Conyngam farms were very pretty from this height and appeared as a vast checkerboard with the contour plowing in the different fields.

The Shopping Center at Shavertown looked exactly like a Christmas tree setting.

Shavertown and Dallas appeared so small you could hold each of them in the palm of your hand.

The tombstones in the numerous graveyards looked like rows of sugar cubes.
