

## Dallas Junior High School Offers Many Innovations

Dallas Junior High School will operate on the same time schedule as last year with roll call at 8:15 a. m. and dismissal at 2:57 p. m. for those students who walk, and 3 p. m. for those who ride the buses.

The lunch program will operate with three 30-minute lunch periods. Student lunches will be priced at 35 cents with milk at five cents per bottle. Adult lunches will cost 45 cents. Payment for lunches will be made to the cashier daily at the end of the serving line. The cafeteria will operate the first day of school. Returning students will find that the maintenance staff under the direction of John Paul, Supervisor of Maintenance, has been busy during the summer.

Seven classrooms, the dining room, the rear wall of the gymnasium and all of the lavatories have been newly painted.

Heating units in all classrooms have been thoroughly cleaned and three obsolete units are to be replaced.

A door has been installed between the business office and the guidance office to provide greater privacy in carrying out the guidance program.

A drainage system has been in-

stalled in the boys' locker room to correct a troublesome water seepage problem.

Metal shelves with individual storage baskets for each boy will also be installed and necessary painting completed. Additional showers have been installed.

All classrooms have been thoroughly cleaned and scrubbed and floors refinished with floor seal and wax.

Extensive repairs classified as general maintenance will also have been completed before the opening of school.

An attractive and durable entrance mat purchased through the cooperation of the Junior High School P.T.A. improves the appearance and safety of the main entrance.

### Programs Improved

The continuing effort to provide an adequate program for students at all levels will provide several additions to the program of studies. The School Mathematics Study Group program which has been used in some of the eighth grade groups for the past three years has been expanded to include some of the seventh and ninth grade sections. This was done on the recom-

mendation of the Mathematics Department and the approval of the Board of Education.

Mr. Fred Case is now attending the University of Virginia on a special grant preparatory to offering the Algebra course of this program to some sections of ninth grade.

The offering of Conversational Spanish in eighth grade and Spanish I in ninth grade will broaden the language program which now includes Conversational French and French I in those same two grades. The Spanish will be taught by Mrs. Ruth Fossedal, an experienced teacher, who is now attending a Spanish language seminar at Bucknell University as a result of a special grant.

Modern Earth Science will be offered as an enrichment course in the Science curriculum which now includes three years of general science. This course will be presented to some sections of ninth grade by Mr. John Cathrall, who is now attending Rutgers University on a special grant.

Personal Typing will be offered to most of the eighth grade students as one aid to better and more efficient study habits.

Students entering the Junior High School for the first time who did not attend the schools of this district last year are urged to register at the Junior High School office before the opening of school. The office is open from 8:00 to 12:00, and 1:00 to 3:00 Monday through Friday. Please bring your report card from your last school when you register.

## Dallas Schools Expect Enrollment Of 2,671

Dallas Public Schools will open to approximately 2,671 students on Wednesday, September 5.

Enrollment, as of August 15, shows these grade totals: Kindergarten, 215; First, 199; Second, 207; Third, 222; Fourth, 218; Fifth, 215; Sixth, 213; Seventh 190; Eighth, 182; Ninth, 208; Tenth, 235; Eleventh, 210; Twelfth, 132, and Special Education, 25.

All teaching positions have been filled by qualified and certificated professional personnel and all buildings have been cleaned, painted, and renovated where necessary.

Each individual will be taught how to develop confidence and self-direction and will be provided with a common core of general education. Specialized opportunities for greater school achievement will be made available to all students through a program of guidance starting in the elementary grades.

There will be a complete program for citizenship education, for it is the responsibility of the public schools to teach all students how to preserve democracy and how to solve social problems.

The program of enrichment will be continued and high school students will be permitted to attend the Dallas Evening Extension School classes when parents, principal, and guidance counselor approve the additional work.

## Winter Bowling Leagues Get Underway At Crown

School Days are Bowling Days! As opening dates of school draw near, so does bowling season come around.

All leagues will be officially started soon and some begin next week, but most will start rolling at the same time students return to school.

Crown Imperial Bowling Lanes is a beehive of activity. The lanes have just been resurfaced and everything is clean and shining, ready for the 1962-63 season. The spacious parking lot is filled to capacity almost every evening as keglers return to limber up and get in extra practice. Helen and Tony Bonomo are happy, busy doing what they enjoy most. Everyone has a question as they approach the desk and the Bonomos try to answer them all.

Out of Crown Imperial this year will come three teams bowling with Wyoming Valley Classic League; two with Howie Davis League and one with Women's Independent League. All will roll on Saturday nights.

The young people's league will return on Saturday mornings; teenagers are welcome anytime, but those who are interested in forming a league should see Tony for help in organizing. Afternoons after school is dismissed would be an excellent time for students.

All of last year's leagues have returned and a few new ones have been added. Linear is back after a year's absence.

The house tournament is still on. Tony has announced that there is a spot for last minute contestants. So far, Ginger Gosart, Bucky Roberts, and Faye Hopkins are leading scorers.

George Shupp League will return to the line on Monday, August 27 at 7 p.m. and will roll again on

Thursday, August 30th.

The new secretary of Wyoming Valley Women's Bowling Association is Miss Helen Szura, 9 Moosic Street, Wyoming.

Tony and Helen wish to thank everyone who participated in the summer leagues. Everyone had a good time and all are looking forward to the big outing at O'Connell's Twin Lakes on Sunday, August 26th.

## Register Sept. 17, 18 For Adult Education

Adult education program will again be offered and residents of the Dallas School District are urged to register for courses on the evenings of September 17 and 18 in the Cafeteria of Dallas Senior High School, from 7 to 9.

The courses will include all offerings of the day school and any other subject for which at least fifteen adults indicate interest through registration. It will be possible for adults to take courses for credit toward high school graduation and the services of a guidance counselor will be available to all adults planning such a program.

## Nutritious School Lunches Available

The Cafeteria Service of the Dallas Senior High School will offer lunches specifically designed to satisfy the nutritional requirements established by the Department of Public Instruction for children of school age.

The price of the lunches will be 25 cents to children attending elementary schools and 35 cents to those in junior and senior high schools.
