Dallas Will Open Its Grid Season Against Lake-Lehman September 22

Dallas High School will open its football season at home Saturday afternoon, September 22 at 2 against Lake-Lehman High School.

Because of a conflict in dates, Tunkhannock will not be on this year's schedule. Tunkhannock, long an arch rival of both Lake-Lehman and Dallas High Schools, is playing in a new Conference this season, a fact breaks up another long standing rivalry with Forty-Fort High School. Tunkhannock will, however, play Lake-Lehman in a scrimmage game this evening at Tunk-

hannock.

Other games on Dallas High's eight-game schedule are: Friday evening, September 28, Forty Fort; Saturday afternoon, October 6, West Wyoming at home; Saturday afternoon, October 13, Exeter at home; Saturday afternoon, October 20, Edwardsville at Edwardsville; Saturday afternoon, October 27, Luzerne at home; Saturday afternoon, November 3, Northwest at home; Saturday afternoon, November 10, Wyoming at home.

Mr. Tupper says about two hours are required each day, five days per

week, one hour arrival time in the morning and one hour at departure time in the afternoon.

Payment of \$3 per day is made by Dallas Borough Council for this service.

Kindergartners Need Security Of Parents' Presence On First Day

William A. Austin, supervisor of elementary schools in the Dallas School District, strongly advises parents to accompany their kindergarten children to school on Wednesday, and see that they get safely home again. This will give mothers a chance to meet teachers, and clear up any bus transportation problems that may arise.

It is of vital importance, Mr. Austin says, that a small child first entering kindergarten, have the reassurance that only a parent can give. Expecting him to ride the bus on the first day, enter a strange building with strange people everywhere, adjust himself to unknown surroundings, and then alight from a home-

bound bus, all on his own, is too much for the average five-year old. "What happens on the first day of school", Mr. Austin continues, "may set a pattern for weeks of insecurity and withdrawal. Kindergarten is a pleasurable experience, and should be pleasurable from the beginning, with no emotional upheavals."

So, help the child, and the teacher, by bringing the child to school on Wednesday. No time schedule has been set up. Children and parents will be greeted as they come. Registrations will be completed, and everything will be set in motion for a full session on Thursday.

Rooms Ready For Kindergartners

Separate Entrances, Separate Facilities

Robert Belles, elementary supervisor for Lake-Lehman Schools, reminds parents that he expects registration for kindergarten to be complete by Friday, September 7. He also reminds parents that no bus transportation can be furnished by the school district.

Fifty-seven children are already enrolled, with expectation of double that number by opening of school. Two rooms at Lake, and two at Lehman have been set aside for kindergarten. Only one room in each building will be used this year, the second room for future expansion.

Parents will approve the arrangement of kindergarten rooms. All four are on the first floor, with outside entrances separate from those used by elementary grade children, and each kindergarten suite has its own toilet facilities.

YOU'RE MAKING A BIG MISTAKE IF YOU'RE NOT DRINKING 80 PROOF GIN!

If you think higher proof means higher quality — that's a mistake.

If you think you have to pay more money to get a better gin — that's a mistake.

If you think the gin most Englishmen drink is more than 80 proof — that's a mistake.

You should know, to begin with, that America is practically the only civilized country in the world that drinks high-proof gin. The British, who perfected gin, know that gin has an ideal taste and flavor balance, and they prefer it at milder, smoother 80 proof. Here's the whole story:

80 PROOF GIN TASTES BETTER
 "Proof" is no measure of quality. It's a measure of alcohol content alone. (100 proof means 50% alcohol.) Alcohol itself has no flavor. The pleasant taste of gin comes entirely from the herbs with which it's distilled.

The best test of gin is to drink it straight or on-the-rocks. You'll find 80 proof gin has the big taste advantage of 80 proof mildness — with the same full flavor of higher proof gins.

80 PROOF GIN COSTS LESS
 Gins are taxed by the U.S. on their proof or alcohol content, only. The lower the proof — the lower the taxes, and the lower the cost to you. When you buy an imported label, you add the cost of shipping and duties. That pushes the price even higher, without giving you 80 proof quality.

80 PROOF GIN MAKES BETTER MARTINIS
 It makes them extra dry, as you like them, but not extra strong. Twenty years ago, the 3-to-1 Martini was standard. Today, with the trend to dryer Martinis, they're made 6-, 7-, even 8-to-1. As a result the modern Martini has climbed from a smooth 75.5 proof to an overwhelming 84 proof! Solution? Mix with 80 proof gin. It gives you the same full, dry gin flavor, but it returns the Martini to its original, more moderate proof.

80 PROOF GIN MAKES BETTER TALL DRINKS
 When you mix a tall drink, like a Collins or a gin 'n tonic, you dilute the strength of the gin "to taste." You also mix for balance of flavor. 80 proof gin will give you better balance. You don't have to drown it to drink it.

HOW TO MAKE DRY MARTINI MAKE MORE SENSE

Using Standard 35 Proof Dry Vermouth	Using 80 Proof Dry Gin	Using 80 Proof Dry Gin (or Vodka)
3 - to - 1 (Traditional)	75.5 Proof	69.0 Proof
5 - to - 1 (Dry)	81.0 Proof	72.6 Proof
8 - to - 1 (Extra Dry)	84.0 Proof	75.1 Proof

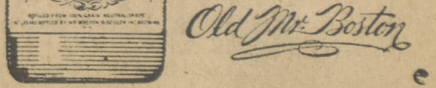

(The "standard" proof for today's bottled Martinis is a moderate 67.5 proof)

OLD MR. BOSTON IS THE FINEST GIN YOU CAN BUY

It's vacuum distilled at an unusually low temperature in special glass-lined stills. Only at such a low temperature, is it possible to capture the most delicate essence of the herbs. This is one reason for Old Mr. Boston's flavor distinction. It is America's first and largest-selling 80 proof Dry Gin!
