Editorially Speaking:...

Through Me The Dumb Shall Speak

I am the voice of the voiceless Through me, the dumb shall speak; Till the deaf world's ear be made to hear The cry of the wordless weak. From street, from cage, and from kennel, From jungle and stall, the wail Of my tortured kin proclaims the sin Of the mighty against the frail.

The same force formed the sparrow That fashioned Man, the King; The God of the Whole gave a spark of soul To each furred and feathered thing. AND I AM MY BROTHER'S KEEPER AND I WILL FIGHT HIS FIGHT And speak the word for beast and bird

Till the world shall set things right. Ella Wheeler Wilcox

We hope you had an opportunity to read the August Report of the Society For the Prevention of Cruelty to Animals, edited by Ruth Schooley for the Luzerne County

If you haven't received it, you should write to the SPCA Fox Hill Road, Wilkes-Barre RD 2, for a copy which will tell you graphically what a few dedicated people are doing for the unwanted and neglected creatures of this county . . . and we might add with a minimum of public appreciation and support.

Quoting from the Reports "Since its opening April 10, 1960, the SPCA Animal Shelter has given refuge to more than 15,000 animals. Many have been starving, others have been suffering — several have been tortured by so-called human beings. Thousands have been abandoned while others have been unwanted. All have found good food, loving care and alleviation from suffering while at the shelter. Thousands have found new families to love them".

We in the Back Mountain Region should be especially proud of this great institution and its humanitarian work, for it was largely through the love, dedication and financial support of the late Mrs. Z. Platt Bennett that the SPCA came into being.

Today a very few dedicated people at considerable personal sacrifice and inconvenience are carrying on the work which she started. Without them the Animal Shelter would fold.

Although there is not a municipality in Luzerne County that has not benefited through the Society's work of picking up lost, strayed, sick and injured dogs, the financial response of the governing bodies has been

If you personally feel that this endeavor is worthwhile, you should appoint yourself a committee of one to see to it that your township officials are acquainted with the work the Society is doing, with its need and that your municipality contributes annually to its support.

If you are not yourself a member, send in a contribution of \$2 or more today. You will never regret it and you will never miss it.

Quoting again from The Report: "Although we have shocked you with true stories about children setting cats on fire and children throwing kittens into the river, our belief that children love animals is borne out by the following:

"Four ten-year-old boys recently came trudging up to the shelter with a little blind kitten. They had been hiking in the woods when they found it about two miles away. They walked all the way to the shel-

ter to bring us the kitten". The SPCA has movies and slides available for Scout tings, Sunday Schools, and other organizations who to show them. Not many people know about this, it would be of benefit both to your child and his or organization's leaders if you would let them know of availability. Youth leaders are always looking for material to make up their programs. All they need call the Animal Shelter VA 5-4111 and ask for Mise

TROUBLE ON POWDER HORN September 3, 1962.

As a resident and taxpayer in

John Snyder, while working on Dallas Borough I would like through the Nesbitt Farm, broke his back in your reader's column, to express my elings and those of my neighbors Leo George broke a stranglehold to the disgusting job that our Borand saved a frantic swimmer from ough is doing on Powder Horn

This street has been torn up all summer and now is in a deplorable state. With our children going to and from school, they must walk through fields of high grass and weeds to get to and from home. Early this summer they put in a drain pipe to carry off the surface water from the hill above us, this trench was open for at least five weeks, due to the tractor shovel breaking down. Then along comes the gas company and opened the other side of the road and laid gas lines, this was a one-day job, they

filled their trench and were gone. Now along comes the Borough truck with loads and loads of field stone and dump it all over the street. Now comes two or three or four Borough men with sledge hammers to crack up this stone this kind of labour was done away with over fifty years ago.

Does our Council know that crushed stone can be obtained at a quarry less than five miles from Powder Horn Drive? Does our Kingston Township supervisors Council know that the Borough

THE AUDIENCE - The most important part of any television show is the audience. The new season opens and the networks are all ready with their greatest shows balanced against each other, each hoping to win the largest viewing audience for their advisers. In some cases it will be western, comedy against comedy. Within a month the viewers will have decided the success and failure of most shows.

The biggest battle will take place on Wednesday night. It will be between the ABC network and NBC. ABC this season will be carrying the highly prized "Wagon Train," a former NBC property. Last season this show was No. 1 throughout the country.

Opposite this NBC will present "The Virginians." This will be a 90-minute series and will go on the air the same time (7:30) as "Wagon Train." NBC is hoping that "The Virginians" will be good and that the audience will be tired of "Wagon Train," which is five years old.

Programmers believe that if they can capture an audience early in the evening, for the 8 or 8:30 p.m. only proves that Ben Casey can shows that they will continue watching that channel for the rest of the evening. Ratings seems to prove the death sentence. This has been most miserable condition. this theory true.

nesday. "CBS Reports" will be their program for 7:30 p.m.

CBS is putting more hopes on returns with a new show at 8:30 audience CBS will be very happy. Her competition is the tired program "Rifleman on ABC and and Sinners." Adams in a series of newspaper

nice balance to campaign on, noth- statute which says: "An innkeeper outcry about the existing taxes, or ing being said that the next admin- cannot serve alcoholic beverages to

Now which is law - the plain meaning of the statute or this ageold "right and wrong" business. Well, every time two lawyers fight out a case the same question comes up. And the judge decides which law is more important, i.e., which one he happens to like.

But it seems stupid to expect a kid to respect the law, if he doesn't know what it is. And it seems equally stupid to expect the barowner to know better than to serve minors, when he is not perfectly certain just when his responsibility ends, and the perjuring minor's responsibility begins. All business involves taking some chances.

About the only thing that doesn't eem stupid about such a deal is being a lawyer for either the innkeeper or the lying minor, since the more confusion, the more money he'll get paid in fees.

Well, the only solution I can see is to forget about those affidavits, and accept age-cards or nothing. Let's face it: There isn't a kid in the state who knows he looks younger than 21, or might be border-line in looks, and still forgets his age-card when he steps out at night. He'd rather forget his

shoes than his card. So, if you accept such an explanation as "I left it in my other pants", you're asking for whatever trouble you get when you serve a

Barnyard Notes

Alam King 'Defends' Suburban Living

Exposes on suburban living, describing wild orgies, nude swimming parties and mad drinking sprees, annoy comedian Alan King. The sage of suburbia says he'd "like to know where this wicked,

immoral community is supposed to be. I want to move there. In "defending" suburbia in the current (September) issue of McCall's magazine, King insists "middle-class suburbanites are just as moral as the folks who live in big cities. Get involved with lawn mulch, Cub Scouts, storm windows, fund drives, car pools and the PTA, and see how much orgy time you have left."

King also makes the following points about the advantages of

1. HEALTH: "No chalky complexions or city pallor here. From May through September, the kids are brown as berries. Sunburn? No, it's charcoal. There's so much smoke in the air that if my wife wants to make a clear soup, she has to cook it in the fallout shelter." 2. MODERN CONVENIENCES: "There are radios that turn on

ter whose head is sticking out of them." 3. ECONOMY: "In 35 years, I'll own my house free and clear. When I'm 75 years old, it won't cost me a penny - with a few exceptions. Like \$10 a month for insurance, \$30 a month for main-

the radio, and remote-control windows that open and shut no mat-

tenance, and \$650 a month for taxes.' King invites doubters to see the wonders of suburbia for themselves, before they start criticizing. "Come in the fall," he suggests, "after the hay fever plague."

Pillar To Post...

Picking up the pieces after the vacation was about like picking up the pieces after a hurricane. It involved cadging taxi service from the kids around the plant, borrowing the decrepit station wagon on occasion, and finally an overnight jaunt to Richmond, Virginia, by bus, followed by a trip up over the road after picking up the car from the car hospital in Richmond.

"You been riding that clutch," announced the mechanic sternly. "I have NOT been riding that clutch. I don't ride clutches." "Then you've been going into gear too slowly instead of all in

"Come on, now, the thing leaps like a jackrabbit unless I ease it

"Well, you better cut it out, unless you want to pay for another With the receipted bill for one clutch, installed in one English Austin in my hand, I reflected that an English Austin is a lovely

thing to drive, stick shift and all, but that there are drawbacks. Buy a Chevvie, or a Plymouth, or a Ford, and you can find replacements in any garage, and a mechanic who can install the stuff. Drive an English Austin, and you're apt to get stuck somewhere out in the sticks. Hereabouts, it's simple enough. Danny Meeker is at the other end of the line, and he can diagnose the situation

and do something about it. Unfortunately there was no Danny Meeker down below Rich-

Back in Dallas, I consulted John Kupstas. "Johnnie," I inquired, "How do you get a car with a stick shift into gear without wear and tear on the clutch? Isn't that what a clutch is for?'

"What procedure are you using?"

"Depress the clutch all the way, shift the lever, and let up on the clutch, slowly enough not to jerk." "Sounds all right," says Johnnie. "Well, something happened to that clutch. The mechanic showed it to me, and it was worn down to a frazzle. And that didn't just

happen overnight. Could be I better switch to another car with an automatic transmission." It was quite a clambake Wednesday night. Richmond by bus, engulfed in a black tidal wave at five a.m., a soldier boy and I and one other, the only white folks on the bus. And I was ashamed of the one other. He became very vocal along about Fredericksburg, announcing how he would change the world if he had his druthers,

and wondering how soon the bars opened in Richmond. The colored woman three seats back, hushed her wailing child. The other dark men and women sat quietly, resting their heads on

their hands, paying no attention to the vocal one. The bus driver looked around briefly and hissed, "Let it rest now, huh? You can't get anything in a bar in Richmond anyhow,

The wounded one moaned and subsided. Came the dawn, and a stirring of the passengers.

Fifty minutes later, I was in the Austin and on my way back to Dallas after the longest week on record. The fresh morning breeze turned to a breath from a furnace. Never has Dallas looked quite so beautiful.

It was cool that night, cool erough for a small fire in the Frank-And that bed. After a night sitting up in a bus, and a broiling day of driving north over route 301 and route 111 and route 11 and route something or other through Benton, and through Ricketts Glen, and Lehman, and finally Dallas, it was heaven to peel off the

sodden clothing, plunge briefly into the tub, and fall into bed. Nothing like sitting up all night and driving all day to make you appreciate small comforts.
