DIRECT DISTANCE DIALING
coming Sunday November 18 at 2:01 a.m. to
Dallas, Muhlenburg and Nuangola

Starting Sunday November 18 all telephones (except coin) in the above communities will join the network using the modern telephone facility: Nationwide Direct Distance Dialing (DDD).

It will put faraway horizons at your fingertips. With DDD, more than 40,000 places in the United States and Canada can be dialed direct.

DDD is for station-to-station calls only. Person-to-person calls, collect calls, and calls from coin telephones will be made, as in the past, by dialing Operator.

At the same time, Wilkes-Barre, Bear Creek, Glen Lyon, Kingston, Mountain Top, Plymouth and Wyoming will also join the Direct Distance Dialing network.

IMPORTANT—Code "1"

Before dialing a Long Distance call, you will first dial the numeral 1 (one). Dialing Code "1" connects you with Long Distance equipment and prevents a misdirected local call from being billed as a Long Distance call.

An operator will come on the line just after you finish dialing and say, "Your number, please." Give her the number you are calling from, not the number you have dialed.

MUHLBURG telephone customers will get new telephone numbers with Direct Distance Dialing on November 18. The new numbers are listed in the September 1962 directory. On November 18, cus-

tomers may discard the old 1961 directory which they were asked to hold.

You will receive an instruction folder. You can also find complete dialing instructions in the information pages of the new telephone directory. It includes a list of many of the places, with their Area Codes, which you can dial direct.
