

### Mt. Zion

Sometime ago Sharon LaBar asked both Rev. Reid and me to write recommendations for her to enter Pennsylvania Hospital in Philadelphia, the School of Nursing. Well, anyway, Sharon tells me that she has been accepted and expects to enter the school next September. I think Sharon will make good.

Mr. and Mrs. Ralph Swan presented their fourth child Edward Mark Swan for baptism at Mt. Zion Church Sunday morning. That makes them 2 boys and 2 girls. Mark Dymond of Centerville stood with them as sponsor.

One of the smells I enjoy when walking our dog Tuffy past Dick Lewis' barn is in late afternoon when he has just been sending a layer of silage down the chute for his cows. Something about that delicate sour smell almost makes my mouth water. Same as sauer kraut does. The cows look as if they liked it too. Dick has a healthy-looking lot of cows.

I was over to Weatherlys the other day. He showed me where they are beginning an addition on the north end of their house which will enlarge that room but will also include a fireplace. That will add to the coziness of Happy Hill. What a sweeping view they have from their front window! One's eyes start from looking down at one's toes, then out across the field, the pond, the wooded area, the Mt. Zion church (when the leaves are gone from the trees) and then up the slopes of purple majesty of old Bald Mountain with her several moods reflecting cloudy, misty, or clear-day demeanor.

Well, I guess winter can come along any time now. The last bright day I spent getting on the home-made storm sashes. They are light to handle because I made the frames and covered them with heavy plastic. They are not air tight but do cut down on the wind.

This is the time of year when the wind in the trees takes on a

different sound. We liken it to sound of a freight train the other end of the pond. It doesn't strike the house too violently because trees a little ways off break its force.

We often wonder what Tuffy barks so loudly about with his nose pointing off to the south where old apple trees line our southeast "corridor." Perhaps the fact that most of the apples on the ground have bites out of them may indicate deer nibbling. I never see them but Tuffy may be aware. Deer tracks are in the fresh dirt of the new shoulders on our road edge.

I'm in the process of cutting the stencil for the annual Christmas letter under the name of The Gilbert Story and Jots from Dot. Dorothy has written about her arrival, the sunsets, her new friends, the Opel car she will be driving, and—of all things—she requests her bathing suit! That letter came on one of our coldest days and I was not in a bathing suit mood, but of course we'll send it. It's warm there in Kimpese.

I didn't make my Valley Crest calls on Thanksgiving Day but the day after. On every hand I heard what a wonderful Thanksgiving dinner they enjoyed. They said it was extra good. One day I started singing an old gospel song, and to my delight there were several patients singing with me!

### Beaumont

Once again the annual appeal for funds is being sent to the many friends of "THE SALVATION ARMY". Won't you send your generous contribution to the local

treasurer, Mrs. William A. Austin, as soon as possible? This community sends its sincere sympathy to Mrs. Harry Walter at the death of her mother, Mrs. Huey of Philadelphia, and to Mr. Robert Belles at the death of his mother, Mrs. Francis Belles of Noxen.

It's good to know Herbert Goodwin and John Denmon are improving at Nesbitt Hospital where they have been patients. Beaumont P.T.A. sponsored a roller skating party at Wolfes Grove recently.

Mrs. Clarence Hilbert was a recent patient at the Nesbitt Hospital where she was admitted for diagnostic tests.

Mr. and Mrs. William A. Austin were with the T. J. Keatings at West Chester for Thanksgiving.

### Lehman

Mr. and Mrs. Charles Nuss entertained on Thanksgiving at a family dinner. Present were: Mr. and Mrs. Arthur Nuss, David, Pulaskie, N. Y., Ronald Nuss, Arlington, Virginia, Mr. and Mrs. Alden Wagner, Sr., Huntsville, Mr. and Mrs. Alden Wagner, Jr., Paul and Mark, Holtwood, Pa., George Penner, Sr., Robert Meixall and Jesse Meixall, Wilkes-Barre, Mr. and Mrs. Chester Young, Raleigh, N. C., Mr. and Mrs. John Hill, Kingston.

Each year the Nusses and family members who are present write a "Round Robin" letter to all the relatives who are unable to attend the Thanksgiving Day get together. All of Lehman enjoyed Ronnie's low flying maneuvers over his home and over town on Sunday, Ronnie is an Air Force Reservist and occasionally visits Lehman in his jet.

Friendship class will hold its annual Christmas Party, a covered dish supper, on December fourth in Lehman church. Gifts will be exchanged. Mrs. Howard Ehret is in charge of entertainment.

Mr. and Mrs. A. B. Simms entertained Mr. and Mrs. William Crum, Harriet, Sally, David and Bess, Clark's Summit, on Thanksgiving.

Marie Hardisky, Bloomsburg State College, was with her parents, Mr. and Mrs. Frank Hardisky for the Thanksgiving Holiday.

Mrs. Allen Major's mother, Mrs. Williams, is improving at Nesbitt Hospital after being admitted as a medical patient.

The Lehman Methodist Sunday School will present a religious Christmas Pageant on December 23, in the church. Practice for the choir and the pageant will be held on December 5, Dec. 13, and Dec. 20. At 7:30, all children in the Sunday School are to bring gifts and their parents to this program. There will be no children's party this year.

Mrs. Alice Elston had as holiday guests, Homer Middleton of Endicott, N. Y., Mr. and Mrs. Charles Crook, Flanders, N. J. and Rev. John Stahl, Boston. Mrs. Stahl and Christee are spending the winter here while Rev. Stahl completes his schooling.

Thomas Elston is stationed in La Stezia, Italy, where he is building boilers in the largest boiler plant outside of the United States for the Combustion Engineering Company of New York. Tom has visited Florence and Milan while working there.

Mrs. Mabel Zimmerman and Muriel, New York City, spent the holidays with Mr. and Mrs. Albert Ide.

### Intelligence Test For Fourth Graders

John Thomas, elementary school counselor, states that pupils in the 4th grade of Dallas Schools will be given an opportunity to demonstrate their academic potential on a test which is independent of cultural background and previous scholastic experience.

It has been found that frequently pupils score poorly on group intelligence tests because they come from a low socio-economic environment where they lack intellectual stimulation. Many traditional intelligence tests are highly saturated with culture loaded items. This tends to handicap some children.

In an effort to assure that each child in the elementary school will be given an opportunity to demonstrate his general intelligence, the Cattell Culture Fair Intelligence Test has been added to the testing program.

Results should be available to parents by the first week in December. Parents interested in their child's performance are invited to contact John K. Thomas, elementary counselor, at Westmoreland Elementary School.

Mrs. Mabel Zimmerman and Muriel, New York City, spent the holidays with Mr. and Mrs. Albert Ide.

### Attends Harrisburg Dealer Preview Show

Robert J. Gabel, salesman for Charles H. Long, Oliver Equipment dealer at Sweet Valley, received a dealer preview of 23 new Oliver farm equipment products for 1963 — one of the largest arrays unveiled at one time by a single manufacturer — at the Farm Show Building, Harrisburg, Monday and Tuesday.

Dealers from throughout several states attended the Oliver Corporation show, with Samuel W. White, Jr., Oliver's dynamic 43-year-old president, keynoting the two-day event and talking personally with dealers along with other Oliver headquarters executives.

The display of 1963 Oliver equipment featured outstanding new developments for every type of farming as well as for all phases of farming operations.

### John Hallock Dies At Cresson Hospital

John Hallock, 68, who made his home with his son Robert on Race Hill, died Saturday night at Cresson, where he had been a patient for the past three months.

Born at Thurston, he was son of the late Alexander and Mary Whitlock Hallock. He spent most of his life in the area around Eatonville, and was a member of Eaton Baptist Church.

He leaves four sons: Robert and John, Noxen; Clarence and Joseph, Harveys Lake; a sister Minnie, Noxen; a brother Frank, Canasota, N. Y.; and thirteen grandchildren.

He was buried in Marsh Cemetery Tuesday afternoon, Rev. Eugene Setzer, Tunkhannock Baptist Church, officiating from a Tunkhannock funeral home.

### Card Of Thanks

The Francis Belles Family would like to thank all friends and neighbors, and the minister, who were so kind in sending flowers and food, and lending cars for the funeral, during the days of the recent bereavement.

### Card Of Thanks

I wish to thank my many friends who sent me cards and flowers and made personal calls during my three weeks at General Hospital, also doctors and nurses for their wonderful care.

Harry Waldo Cook.

### DeMarco Loses Sister

The community extends sympathy to Adrian DeMarco, Sutton Road, whose sister Mrs. Helen DeMarco Pisaro, died in Buffalo, N. Y.

1963 SAAB... built so well that it has a 24,000-mile/24-month written warranty\*

### Take a critical look at SAAB safety

SAAB SAFETY IN MOTION is based upon 1 front wheel drive, 2 carefully calculated understeering, 3 low center of gravity, and 4 advanced suspension design. These factors, working together, optimize road-holding and directional stability. Moreover, SAAB front wheel drive delivers positive traction, makes cornering easier, minimizes tail sway and skids by firmly pulling the rest of the car — on any road, at any speed, through mud, ice, and snow.

SAAB IS SAFETY ENGINEERED. 5 Body shell — utilizing heavy 18- to 20-gauge steel (thicker than most American cars) throughout — encases occupants in a practically uncrushable steel airframe on wheels. 6 Unitized frame construction ensures exceptional rigidity. 7 Additional steel panels brace trunk and engine compartments. 8 A crash bar surrounds the windshield for tremendous extra strength — where you need it most.

SAAB SAFETY EQUIPMENT includes at no cost such "extras" as: 9 collapsible steering wheel, 10 padded dash and visors, 11 positive-locking front and rear seats to prevent forward fold, 12 safety glass in every window, 13 pop-out windshield, 14 seat belt fittings, 15 extra-large fin-cooled brakes.

COUNT AND COMPARE how much more the SAAB 96 provides for safety than any car in — and many beyond — its price class. This car was built to be better and safer, not different... built by one of Europe's leading aircraft manufacturers... built for those who enjoy mechanical excellence, technical uniqueness, and extraordinary craftsmanship.
