## more Trigger-Happy Killers At Large In Back Mountain

A lovely white male cat wandered into the yards of upper Shaver Avenue residents last summer. He was quickly adopted by several families, the Ernest Bells, Mrs. Betty Richman and Pearl Averett, who fed and cared for him.

Particularly intrigued by its friendly nature was Judy Allen, the Bell's granddaughter, who promptly named him "Whitey" and spent all her spare time playing with her adopted pet.

Soon after Christmas Day, the cat disappeared. Everyone was concerned and greatly relieved when he came staggering home several days later. Mrs. Richman noticed his face was badly torn, but there were no other visible wounds on the body.

She took him into her home and tried to nurse him, but his condition did not improve. He was unable to walk and refused food.

In desperation, Mrs. Richman took the creature to Dr. Richard Post, who found its entire body had been torn by gun shot. There was nothing he could do but recommend a swift release for the tortured patient.

Young Judy Allen was crushed at the news and the neighborhood aroused at the cruelty inflicted upon a defenseless, harmless creature by some uncaring trigger happy killer.
