Congratulations to Mr. and Mrs. William R. Hughes who celebrated their wedding anniversary Sunday, April 21. Mr. and Mrs. Hughes accompanied by their friends, Mr. and Mrs. Paul Zweier and Mr. and Mrs. Nelson Stauffer of Kingston called on Rev. Robert T. Webster of the Clarks Summit Methodist Church, on January who took them on a tour of the region up and around Clarks Summit. One of the places of interest was the largest pothole in the world made by the ice glacier many years ago. It was over fifty feet deep and over twenty feet in diameter. This is another example where our local authorities in the Anthracite Region do not publicize our tourist attractions, as the site of the largest pothole in the world was marked by a dirty sign badly in need of paint and the surroundings were very unkempt. We continued on toward Carbondale and here a large area has been stripped mined in order to get at the underground mine fire which is eating its way under the City of Carbondale. Burning coal is visible even in the daylight and they say that at night the burning coal makes a beautiful sight.

Congratulations to Wayne Hughes, who celebrated his birthday yesterday. Wayne is a third year student at Bryan College, Dayton, Tenn.
