

GROWN IMPERIAL LANES

BOWLING NEWS

Spring! Warm weather and longer days! Yards to clean and much to do at home. It becomes more and more difficult to get to Crown Imperial on time for early starting leagues.

It will soon be over! Most leagues will be finished by the middle of May; some are finishing next week. Then, comes the onslaught of summer bowlers! Mixed leagues and fun, fun, fun! Time to change your approach or style or try another ball or get some practice at leisure.

Many new faces will soon appear at Bonomo's Lane, bowlers who return every summer.

Crown Imperial Major
Dallas Nursery men have made up their minds to hold on to that top spot Friday night and added 3 points to their lead last week after a match with Birth's Esso. The "treegrowers" have 84½ points. West Side Novelty also took 3 from Phillips Supply and remain in second with 79. Dallas Dairy, after splitting 2-2 with Monk Plumbing & Heating, has 75.

Big gun was Amby Vida with a beautiful 646 series including games of 225-234 for Shaver-Lumber. Mike Gorey posted single high game of 254 for Dallas Dairy. He finished with a round 690 series including a 197 game.

Monk Plumbing took team honors with 997 (2912.)

Coming soon... spring and summer pasture

Good grass is going to look better than ever this spring . . . to dairymen who've been short of roughage all winter long. Cows love grass, too.

But here are two tips from Purina's dairy experts that may put dollars in your pocket:

- Don't lean too hard on grass alone.** Remember grass is about 85% water and only about 15% dry matter. It's a good idea to feed a little hay every day; right through the summer.
- Don't slack off grain feeding.** Even though grass actually stimulates milk flow, the surge won't last long unless cows are getting adequate amounts of high energy grain rations. For this job, we recommend Cow Chow D, the high efficiency milking ration, fed according to individual production.

Both of these tips make sense from a nutritional standpoint. And both of them are sound as the extra dollars many dairymen get from more milk produced by following this sensible feeding plan.
