Exchange Student In Holland Finds Life Just One Meal After Another

Nancy Sieber, Rotary Exchange Student in Holland, enchants her readers with more tales of life in the Netherlands in such a manner that one would like to visit this quaint country.

November 13, 1962

Dear Mom and Dad, On Friday at 2:30, I took the train to Gouda. It is a one and a half hour ride. I was in a compartment with a long seat for four people. Some soldiers got on at Zwolle.

I had to write a speech for Rotary. I am beginning to think in Dutch now. It is funny how much easier it is to think in a language and then translate it.

Upon arriving we went to our families. Mine had two girls, 22 and 19 and a boy, 12. The oldest girl played in a concert on Friday night so we went to hear her. Then we visited the town hall and met the mayor.

It was hard to believe that the building was older than America. It was built in the 1400's. We also went to St. Jan's Church which is the most famous in the world. It is really magnificent and the enormous stained glass windows are out of this world, so realistic. You can really see the muscles and shadows clearly on each picture. Really breathtaking.

After dinner we visited a nursery, and at 5:30 there was a dance with sons and daughters of Rotary. We ate constantly. At 8 p.m. we had supper and danced again till 12. It was fantastic. Every 15 minutes they served ice cream, pastries and cookies.

On Sunday we took an auto trip through the small towns, had coffee in an old cafe and dinner at a Boat Club. We had such a wonderful time that it was hard to say goodbye, but when I got back to Kingma's, it was like coming home.

It is all so wonderful. I can write and I will bring pictures home but I am never going to be able to show you what it is really like nor what I found so fantastic about the Netherlands.

The people have a certain air about things. You just have to live with them to see it. I hope I can bring you back some day not as a tourist but as a Dutch girl.

Monday, I gave my Rotary speech to 35 members. It was just like talking to my family. I told them about school, church and my family. They were most interested in Tom, our military service and the Peace Corps. Here the boys go into the service at age 20.

The door bell just rang and guess what. A florist package for me. In it were six long stemmed carnations from the Rotary Club. I guess they liked my speech. My very first flower

directress is going to send my grades to our school. She will have to change it to an English form. I have an "A" in History Problems of Democracy, Chemistry, Physics; "B" in Geography, Art Appreciation, Solid Geometry, Plane Geometry, Home Economics; also "B" in English and Dutch; an 83 in Algebra and Trig. I think it is pretty good for doing it all in Dutch but next time an A in Trig and Algebra.

The lights are on now in all the canals but no music is allowed to be played, altho it still looks a lot like Santa Claus and everyone is shopping and busy.

Your Thanksgiving sure did sound great. Guess what. We had chicken for supper tonight. It was delicious but tasted different from ours at home. The chickens here are so small, just like pigeons.

By the way, how would you like to have a Dutch girl live with us, for a month. One of my friends has applied to go to college in America. She will live at the school but would prefer to go a month early and live with an American family. Naturally I asked her to stay with us but she won't know until next summer if she is chosen by the Netherlands American Society.

We may have Santa here at the house on December 5, but nothing public. My big prom which was to be December 8 was cancelled because that is the day the Princess will be buried. If that hasn't caused a fuss. She sure died at the wrong time of year. So the Prom was moved up to December 13, because that is the only day the ballroom was free.

The girls had all asked boys from other schools, towns and the military and a lot of them cannot come now because it is going to be in the middle of the week.

One of my friends, whose father is a noble, asked a boy out of Arnhem and now he cannot come.

All of a sudden I thought of a bright idea and called John Perry in Amsterdam and asked him to come as her escort. He said he would be happy to attend and he is to stay at my friend's home. First we are going to have dinner at her place, then go to a play, then to a dance at school. Afterwards we will come back to the Vegter's and have an after party with 20 people. I am really looking forward to it. I am going with a real nice boy, tall, blond and blue eyes.

Our reports are soon due. My

Princess Wilhemina died and the Netherlands is in official mourning till she is buried. So all parties and Santa Claus festivities have been cancelled except for small children.

On Saturday morning, I was at a Xmas party for poor children with Tanto Jullie, who is head of the Council for the school where they go. They were seven months to six years.
