The manual—covering more than 800 problems—fills the needs of high school and freshman college courses. A section on nuclear chemistry is included.

David Kunkle Opens Office

New Quarters In Trucksville Ready

Dr. David Kunkle opened his new office in Trucksville last week, at 68 Carverton Road, where he has purchased a home with offices on the ground floor and a laboratory in the basement.

Dr. Kunkle, one of the most promising young medical men in the Navy, was obliged to abandon that career five years ago when he escaped death by a miracle in a car crash-up at Patuxent Naval Base, and spent several years inching his way back to health.

He was all set to sail for Lebanon, chief dental officer on the ship, when a three-day siege of strep sore throat flattened him and caused him to black out when starting from the naval base for a flying trip home to Dallas with his surplus dunnage. His car struck a tree, resulting in almost fatal head injuries.

For months he was hospitalized at Bethesda, not expected to survive, and for a year at Veterans Hospital, still groping his way out of the fog.

Working back into his profession, for a time he was with Dr. Bodycomb for a few hours every day, then with Dr. Carlton Davies, whom he left at the end of June.

Now, health completely restored, he is building a home-town practice in Trucksville. Living in the same house with him are his father and mother, Mr. and Mrs. Warden Kunkle, formerly of Lehman Avenue, Dallas.
