Local Boys Win **In Midget Race**

Driver Breaks Arms Falling Off Stands

Large crowds gathered both days Danville, with head injuries. for the Lollipop Open Invitational quarter-midget racing program Sat-. urday and Sunday at the track on Memorial Highway. Attendance and entries were from many states all Ralph Fitch attending. over the east.

Two Back Mountain boys won places in events, and one Larksville boy also won. Drew Bittenbender, Dallas, took first place in the AA open fuel class and in the semi race of that class. Sandy Wazeter, Trucksville, won a second place in the modified stock main event, and Tony the same race.

Alexander Wazeter, chairman of Dallas Quarter-Midget Racing As- Kingston Township sociation, said the only disappointment was the rain Saturday, which postponed the afternoon time trials until evening, thus backing up the evening events until late. Weather Sunday was good.

Freak Accident

Driver's injuries are rarities with quarter-midget racing, but fate sneaked in the back door for one youngster from Abington, near Philadelphia. Bill Beasley, known as a top driver, slipped on the rain-wet at grandstand Saturday, and broke both arms trying to catch himself. He had to watch the races with his arms in big casts. Billy was awarded

a sportsmanship trophy. Also introduced and shown to be in excellent condition was E. Thomas, Easterville, a cornerman who tried to jump out of the way of the cars two weeks ago and landed on his face in the safe zone.

A family from Manchester, N.H., accompanying girl driver Cathy Mc-Guire was awarded the prize for coming the furthest.

Dean Ide, Dallas, and Gordon Shook, Forty Fort, were announcers, and Fred Stevens, East Dallas, and Bob Williams, Wilkes-Barre, were flagmen.

Cider Mill Gets Huge New Press Of 6 Generations, Each Wore One Out

The Alva Eggleston Fruit Farm at Vernon now boasts the largest cider press manufactured, capable of producing 15,000 gallons daily.

Purchased in Trenton, New Jersey, the new equipment was installed recently by special assemblers, an engineer and a rigger, who spent four days putting together the unit.

Set in the hundred year old cider

Dallas ambulance answered three calls this week, one a serious twocar collision at the intersection of Route 118 and Huntsville-Idetown road, when a passenger had to be taken to Geisinger Medical Center,

Thursday there were two calls: At 11:20 Mrs. Stewart Ferguson, New Goss Manor, was taken to General Hospital, Bob Besecker and

Mr. Jeter remembers the kids (among them himself) used to sleigh-ride down the hill, and bump into Mrs. Honeywell's picket fence The Lundy family, who owned a business in Wilkes-Barre, bought the property as expanded by Sullivan, and had an architectural firm renovate it. After the Lundys several people tried to establish the restaurant and cocktail lounge.

Auctioneer Bernard Bartikowsky is optimistic that the new highway will help make the property, as all businesses in this area, a very sound investment.

Road Program To Start Soon

Supervisors Will Fight Traffic Light Removal

Kingston Township Supervisors will begin their road program shortly.

Agreement on Mr. Hauck's plan of paving streets in poorest condition first met approval of other board members. Mr. Hauck submitted two lists, one of roads needing paving and another of those requiring resurfacing, compiled during

an extensive study made by the

Shavertown representative during

the early spring months.

Rail Abandonment

The deteriorating condition of Lehigh Valley railway tracks running through Trucksville and Shavertown left a local resident amazed

James A. Martin, Shavertown, former superintendent of Dallas Area Schools, accustomed to frequent strolls along the countryside, traveled the roadbed last week prior to contemplated relocation of the line.

He found railroad ties badly rotted out, and was astonished that no serious accident had occurr 4.

Reading of the Lehigh Valley's petition to the ICC to abandon the tracks from Luzerne to Dallas, he suggested the use of piggy-back carriers out of Luzerne to furnish firms in the area with faster and more economical transportation, eliminate extra handling and deliver goods right to Back Mountain
