It is really wonderful the way ter, son-in-law and grandson, Mrs. Charles Gosart, Sr., and her friends turn out cancer dressings for their unfortunate neighbors.

A call anytime at all, finds Mrs. Gosart ready and willing to serve. A shortage last week was called to her attention. That evening Mrs. Walter Gerloch, Fernbrook, Mrs. Ruth Houser and Mrs. Ruth Kast, along with Mr. and Mrs. George Voorhees turned out thirty-eight dozen dressings or 456 individual pads in several hours.

CHECKERBOARD bulletin

It pays to feed heifers, dry cows the Purina Way!

Grain feeding of heifers and dry cows is an accepted practice by leading dairymen here in the East. They do it to make more milk . . . and more money. Many report 1,000 pounds more milk during the next lactation when a dry cow is properly conditioned on Purina D & F Chow. You feed it according to body weight...a thousand-pound cow, for example, needs only 10 pounds a day. Purina D & F-full name, Dry and Freshening Chow-is specially designed to help build body condition, which later converts to low-cost milk. You'll find D & F in coarse or pellet form, whichever fits your feeding situation best.

Either way, it's one of the smartest feed buys on the market today. Ask for it by name—"Purina D & F" at our Store with the Checkerboard Sign.
