Russell Scott Is Improving

Russell Scott, Sr., Loyalville, has been a patient in General Hospital for some time. Crippled by arthritis, he could hardly walk when he entered the hospital but thanks to therapy treatment is now able to get about in his room. He also suffers from a heart condition which caused his retirement from work. Mrs. Scott misses him so much and is waiting hopefully every day for him to come home, even if he needs waiting on.

New Refrigerator

It pays to plan ahead when you shop for a new electric refrigerator-freezer, to find one that's right for your family. It's your hardest working appliance says Luzerne Electric Division of UGI, used constantly and always is working for you. Some of the newer models have extra-large verticle freezers and refrigerator sections side by side, or zero-zone freezer sections either above or below their refrigerator sections. Less bulky insulation adds storage space without increasing outside measurements. Doors hinged at right or left give easy clearance. Automatic ice makers, roomy ice-storage bins, self-filling ice trays and standard trays are available. Dairy sections have large cheese compartments, racks for as many as two dozen eggs, and butter conditioners. Double and single crispers keep a bushel or so of fresh fruits and vegetables fresh for a week. Specially cooled meat compartments keep even hamburger fresh for days on end, and zero-zone freezer sections hold food at top quality for months. Refrigerator shelves, meat containers, crispers, freezer baskets, and shelves glide or swing out for easy access. In some models, swing-around shelves may be taken out and used as serving trays. Frost never forms at all in many of the new electric refrigerator-freezer. Labels on frozen food packages can always be read, containers never stick together, and frost never steals storage space. The new electric refrigerator-freezers come in colors, white or metallic finishes and some have optional panels to match your kitchen.

DUAL STANDARD OF BEHAVIOR IN DOGS

By Bob Bartos
Manager, Friskies Research Kennels
Dog's only claim to being a dumb animal is that he can't think and speak. But he makes up for these two shortcomings through acute perception and understanding of what goes on around him. You'll find his behavior may be governed by these powers of perception. Often, a thoroughly

obedience-trained dog, one that is familiar with all basic commands, will respond differently to different members of the family. He'll be a perfect angel with his master and an equally perfect brat with his mistress. And it's not, as many are inclined to believe, due entirely to the more authoritative tone of a man's voice. The dog that subscribes to a dual standard of behavior does so because he has observed that he can get away with a bit of disobedience from one and not the other. It may become almost a game with him... discovering how far he can go. In most cases, if given an inch, he's sure to try for a mile. Naturally, some dogs, just as some people, have greater perceptive powers than others. The more generously a dog is endowed with this quality, the more capable he is of exhibiting extremes of behavior... very good or very bad. Now, if your dog's behavior varies with different members of the family, you can tag him as a highly perceptive and understanding fellow. Take advantage of this quality, guide it into constructive channels. See that everyone in the family consistently demands the proper and prompt response to given commands. If this is done, you should have a beautifully mannered pet. If not, you may end up with a problem pup.

Feeding Tip: It is not necessary to add meat to a good, commercial all-purpose dog food such as Friskies. It already contains meat and bone meal in scientifically balanced proportions.

Gate Of Heaven Embarks On Expansion Program

Gate of Heaven Parish will conduct a drive to raise a minimum of \$125,000 to reduce the present debt on the parish and provide for future expansion. There is need for a convent, rectory renovation and a new chapel at Harvey's Lake to accommodate the Summer crowd which is growing every year. Part of the money will be used to help pay the parish pledge of \$92,400 for improvements at West Side Central Catholic High School. The drive will be conducted this month and the first two weeks in November. The Elmer Williams Funeral Home was purchased in October, 1962, at a cost of \$45,000 to serve as the new rectory. The former rectory at Harvey's Lake is proposed as the site for the new chapel. Planning and administration: Honorary Chairman, Rev. Francis A. Kane; Director, Rev. Richard Frank; Director of Publicity, Rev. Michael J. Rafferty. General Chairman, George Ruckno; Co-Chairman, Al Runstall; Staff Chairman, William Wright; Advertising and Promotion, William Lloyd. Financial Statistics and Budgets, David Barr, Merrill Faegenburg.

Population distribution Phillip Moore, Andrew Lavix and Charles Glawe. Office Service, Equipment and supplies, Charles Glawe, Louis Goeringer; Manpower Planning, Edward Scanlon. Workers and solicitors: Policy Committee: Robert Laux, Louis Goeringer, Dr. Jay Young. Non-parishioner solicitation: Rev. Richard Frank. Parish Solicitation: Gustav Kabeschat, Phillip Moore, Andrew Lavix, Rev. Richard Frank, Rev. Michael Rafferty. Thomas Meighan deserves a special vote of thanks for long and faithful service. He worked with Rev. John J. O'Leary, before Gate Of Heaven became a parish. He has been sacristan of Our Lady of Victory Chapel for many years. In the days of Father Lyons' pastorate, Mr. Meighan used to meet him at the trolley. He is first to come and last to leave the chapel.

DOWN GOES THE COST
Of Electric WATER HEATING

There never was a better time than right NOW to change to the use of an automatic ELECTRIC WATER HEATER!

With the reductions in rates just announced you now get MORE ELECTRICITY AT THE 1c RATE FOR WATER HEATING

No matter how many loads for the washing machines or how many hot baths are needed, there will always be PLENTY OF HOT WATER for dishes and other purposes at the low 1c rate with a new, modern, full automatic ELECTRIC water heater.

A customer using an ELECTRIC WATER HEATER, where all energy is billed through one meter, will now get 400 KWH at 1c per KWH instead of 300 KWH at 1c per KWH under the former residential rate, and the low cost 1c electricity will be available after using 200 KWH per month instead of 300 KWH.

HOUSEWIFE'S DREAM COME TRUE! This quick-recovery electric water heater supplies plenty of instant hot water for home laundry and family showers at the point of use without long, wasteful plumbing runs. Electric hot water heaters are convenient and can be installed anywhere as shown in this utility room.

INSTALL AN ELECTRIC WATER HEATER NOW AND BEGIN TO ENJOY ALL THE ADVANTAGES OF AUTOMATIC HOT WATER SERVICE WITH LOW COST ELECTRICITY
