

A CONVENIENCE OF 2-SPEED WASHING!

LKA 560-0 washer and LKE 560-0 dryer . . . the new two-speed laundry pair with top-of-the-line features you can sell at middle-of-the-line prices. Washer has NORMAL and GENTLE cycles, big 12-lb. capacity. Dryer provides NORMAL and SUPER SPEED drying.

The "560 pair" above features two-speed washing and two-speed drying. The only pair that lets you choose the drying speed, as well as the washing speed, to suit fabric need. Great for hurrying up a heavy load, and gives more flexibility than ever. Other new, budget-priced washer models feature a separate third cycle for wash 'n wears. Famous suspension cooling smooths wrinkles from these fabrics by cooling them down before the spin.

Your greatest asset is our quality performance!
