### Dallas Junior High School News

by Nancy Crispell and Roy Supulski

Last week everyone came to school on Tuesday looking so different that the teachers checked to make sure it wasn't Hallowe'en. But it was only picture day and everyone is now patiently awaiting the return of their colored pictures.

On Wednesday last week clubs were held. Our class club, under direction of Mr. John Bauer, is really going to town and everyone is learning fast.

This Wednesday we had an assembly. A movie was shown entitled "The Mining of Nickel." Everyone was ever so attentive and en-

joyed it very much.

The Dallas Junior High Falcon football team defeated West Pittston twenty-four to fourteen on Monday. Dallas scored two touchdowns on passes and the other five on the ground. West Pittston scored both of their touchdowns on long plays.

The B squad of the freshman football team sought revenge last Friday by defeating the eighth grade eighteen to nothing. Maybe they were sparked by their report cards?

### Hospital Impressed With Dallas Courses

Three Juniors from Dallas High School visited Robert Packer Hospital at the visitation day in October. The three students were Patricia Cully, Janice Hanna, and Judith Wright, who said they had a tour of the hospital, an insight into the curriculum, and a film showing the everyday life at the school of nursing.

The girls were impressed at seeing the course in Biology and Psychology being taught at the Hospital, because it became apparent that both these courses are basically the same as the present courses in the high school curriculum at Dallas.

The girls stated that hospital officials were greatly impressed by this fact and told the girls that they would have a decided advantage in being accepted after completing courses such as these in high school.
