

Waltz through Washday

Little Lady

WITH A *new*

Electric

clothes dryer!

and..... an

automatic washer

If there's not a modern automatic washer and electric clothes dryer in your house, the lady of the house is working too hard—and too long—on washdays. With this ideal Christmas gift, washing is done the automatic way. And—you can depend on plenty of good hot water for all the laundry needs with a quick-recovery electric water heater. Then dry clothes with an electric dryer which will save the time and work of lugging out heavy wash to hang each piece on the line and—you'll be able to dry clothes rain or shine, day or night. Your automatic electric dryer dries clothes just right, too, sweet-smelling and fresh, and perfect for easy ironing or for immediate storage.

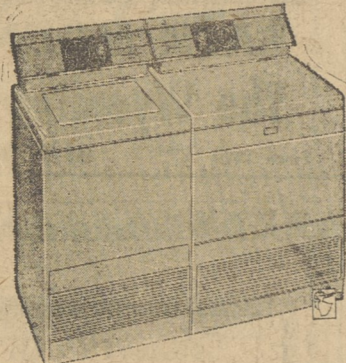

The Ideal Christmas Gift

Give her an up-to-date automatic washer and electric clothes dryer which will provide a vacation from washday work. It's a gift which will be remembered for a long time!

See the new automatic washers and automatic electric dryers this week at your dealer's or stop in and see the large display at the
