Editorially Speaking No Higher Calling

Every day is Mother's Day.

Mothers all over the world go quietly about their business of making a house into a home. They are content, for the most part, to remain behind the scenes, smoothing the way for the more aggressive members of the family.

They take little credit to themselves.

Many of them do not realize that there is no higher calling.

To many people, being a mother classifies as "no occupation.'

A true home-maker combines the wisdom of the ages with the realization that times do change; that adjustments must be made; that children are leaping eagerly

Dies At General Dallas Man Active In Many Projects

David J. Joseph

Losing a valiant fight against

Becoming ill suddenly on April his condition continued critical un-

A man who strongly believed in where

His devotion and pride of family Company, where as general superintendent, he guided his men with a thought always of their safety. Born in Wilkes-Barre, he was the son of the late John D. Joseph, a former superintendent of Lehigh and Wilkes-Barre Coal Company, and Mrs. Gwen Joseph, Shavertown. As a lad growing up he spent his weekends and summers learning the breaker business first hand, and upon graduation from Coughlin High School, gained full time employment in the underground workings. Advancement was rapid due to his executive ability.

He married the former Ann Taylor, Lee Park, with whom he celebrated his 42nd wedding anniversary on December 8, 1963. The couple has lived in the Back Mountain 30 years, the last twelve of which were spent in Dallas.

Mr. Joseph will be well remembered as a song leader much in defund-raising projects.

He was a member of Huntsville Christian Church and its board of trustees, Lodge 655, F. & A. M., Keystone Consistory, Scranton, and Irem Temple. Past president and privileged member of Dallas Kiwanis Club, he was also past president of Retired Men's Club of Wilkes-Barre, and a member of Daddow Isaacs Post No. 672, American Legion, Dallas.

In addition to his wife, he is survived by a daughter, Mrs. Ernest Thomas, R.N., Dallas; sons, John T. Joseph, Silver Springs, Md.; Sgt. David T., stationed at the Pentagon with the U.S. Air Corps, Arlington, Va.; Charles Remphrey, Atkins, Ark.; and eleven grandchildren. Also his mother, three sisters, Miss Anne and Mrs. Arthur Evans, Shavertown; Mrs. Kenneth Woolbert, Trucksville.

Services were held Tuesday after-

Cemetery, Dallas.

Interment was in Fern Knoll

At 8 p.m., the Gloria from Bach's

If the 1964 Worlds Fair in New York is anything like the 1939 World's Fair twenty-five years ago, it would be a solid idea to wear old shoes, carry a raincoat, and leave the hard-boiled eggs and

fish sandwiches at home. Hard-boiled eggs, pelt, have a way of soaking through the bottom of the paper sack, and it isn't smart to eat tuna fishwith mayonnaise, after you've been carrying the sandwiches around for half a day

So, economy-minded or not, better leave the home-packed lunch behind, and rely on the hot-dog stands at the Fair. The kids will demand hot dogs anyhow. Their capacity is unlimited. Begin putting shiny coins in the piggy-bank right now, and by the time you start for the fair, you'll have enough for the hot dogs.

They say there's so much entertainment for free that you don't really need to spend very much on entrance fees, once inside the

Offhand, the most painless way of attending the Fair would seem to be to go by bus, with a group of friends who all want to see about the same thing. This eliminates the car-parking problem, and insures passing into a pleasant coma on the way home, with a professional doing the driving, and no necessity to prop the eyes open after a day of sight-seeing.

The way it worked out twenty-five years ago, the ill-advised experiment in an economy lunch, complete with hard-boiled eggs and soupy sandwiches, was jettisoned in a convenient trash can along about eleven o'clock, and from that time on, the hot dog stands did a thriving business.

Grandma walked the legs off the kids.

When they collapsed on benches, panting with exhaustion, Grandma was still raring to go. "What's the matter with them?" she wanted to know. "They shouldn't wear out so guickly." Grandma was approaching eighty at the time, and Grandma wanted to get her money's worth. After all, whoknew when the next World's Fair would come along? Chances are it would be in some completely inaccessible spot, while New York was close at hand.

Hauled to their feet, the kids stumbled along in Grandma's wake.

One blonde visitor from the Pacific Coast, where summers are cool and a fireplace fire is necessary every night the year round, could not take the heat, and passed out while waiting entrance to the Futurama, draping herself across a convenient steadying arm:

Grandma, next in line, was sympathetic, but she was not about to give up her hard-won place. The visitor, under convoy of an alert guard, was hustled off to the air-conditioned infirmary in the basement of the Futurama, and eventually viewed the exhibit from the moving armchairs . . . and in the next unit was Grandma, the line finally having delivered her to the entrance and provided her with a place to sit.

She said afterwards that all those little cars on the cloverleaf intersections of the Futurama were pretty cute, but that of course it would be impossible to build such huge roadways. It would take up all the space now devoted to farms.

Farms, she had announced on one occasion, were probably necessary, but fields of corn grew monotonous. She enjoyed a drive through the country, it made her so thankful that she didn't live there.

And as for airplanes, she didn't take much stick in airplanes: The vision of the future was interesting, but completely impractical.

That was before the world was catapulted into Space Age. There've been some changes made, but one thing remains just about the same.

That's the hot dog, a hardy perennial.

Bet the hot-dog stands are doing a rousing business, and that by the end of the summer the hot dogs consumed by the visiting public would, if laid end to end, encircle the globe in a wide band, 4 probably lapping over the poles and trailing off into outer space, headed for the moon.

Prince Of Peace Antiques Show noon from an Edwardsville Funeral Home with Rev. M. Richard Bevan

DALLAS, PENNSYLVANIA

into the future of the space age, and that time rushes by on such winged feet that nobody can keep up with it.

Mothers are apt to feel a little dizzy at times, but they would do well to remember that the eternal verities do not change, no matter how swift the pace.

That honor, and decency, and integrity, are still pearls of great price.

That love is vital for without it, a child can never realize his full potential.

And that instilling fundamental principles into their children is the most important thing that mothers can accomplish.

The Unhappy Beagle

Political capital is going to be made of President Johnson's picking that unfortunate beagle up by the ears 'to hear him yelp.'

And it is also going to be made of driving on the wrong side of the road at excessive speed.

Not to mention that can of beer.

What it amounts to, in an election year, you can't afford to be natural, if you don't want to explain to the hecklers.

Everybody has at some time driven on the wrong side of the road. The traffic cop issues a warning if he's around, but it is nothing that gets into the newspapers.

A large segment of the population bends an elbow upon occasion, but this does not set off a national crisis.

Many people honestly believe that the proper way of lifting a rabbit is by the ears. The SPCA entertains a different view. They say, lift it by its midriff.

Hoisting a beagle by its ears is guaranteed to make him yelp.

It is also guaranteed to make the country yelp, if the hoister is high in the councils of the mighty and intending to run for office.

Elections are won or lost upon such issues as a polkadot necktie, a brown derby worn at a cocky angle, a large black cigar, or an outraged beagle.

It's A Powerful Drug

It has been said time and time again, but one more time does no damage, and it may save some child's life:

KEEP THE ASPIRIN BOTTLE AWAY FROM THE CHILDREN.

Most of us think of aspirin as completely harmless. It is a valuable drug, but it is a DRUG.

And in large doses, it can be fatal to a child.

Children will swallow anything. And with all due respect to the drug companies which have endeavored to make life pleasanter for the children by flavoring aspirin so that it tastes like candy, they have done something which can be lethal. It's perfectly OK for a drug to taste like medicine, and far safer.

Lock up all the drugs. Don't leave the aspirin around for children to sample, any more than you would leave the can of lye or bottle of disinfectant.

Children like to play doctor. They will pump pills into a younger brother or sister.

Nip this in the bud by seeing that there are no pills easily available.
