

THE NEWEST IDEA IN RANGE-OVENS

"Built-In Look" without Built-In Cost

NuTone Range-Ovens look completely BUILT-IN, blend perfectly with cabinets and counters. And you install everything with only ONE electrical connection . . . in ONE money-saving operation!

Safe Eye Level Controls For Range-Oven

NuTone's advanced engineering combines safety with convenience. Controls are in front of the Hood at adult eye-level . . . out of harm's reach for children; away from surface-cooking heat.

Hood - Fan Reaches Over Front Elements

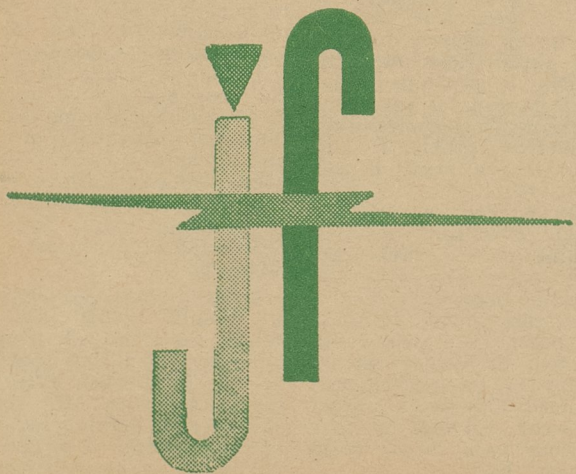

It's built-in, powerful . . . and 21" deep, to get rid of odors, grease and smoke from cooking — protects kitchen cabinets and walls. — NOT JUST OVER BACK ELEMENTS, but over front elements too, where most cooking is done.

Self - Ventilated, Closed - Door Broiling

You can broil without opening the Oven Door! It's smokeless, with NuTone's self-contained exhaust system. Smoke is gently whisked away without disturbing proper oven temperatures.
