

Back Mt. Home-Makers Holiday Courses Offer Something Unique

One of the Dallas Post's favorite people was working away at the paper mache project table at Back Mountain Home-Makers Holiday session on Tuesday morning. Mrs. Alfred Bronson, Sweet Valley, who seldom misses a course offered by the YWCA in this area, was dipping long strips of paper towelling in liquid starch, and draping it over the head of one of the kneeling figures for her Christmas creche.

The new approach to modelling figures, explained instructor Mrs. Sanford Kellogg, eliminates the sticky business of mixing up wall-paper paste and glue, and shredding newspaper.

Liquid starch dries stiff, and takes kindly to paint.

For one of the larger figures of her manger scene, Mrs. Edward Ratcliffe was using coathanger wire to strengthen the legs of the tall camel, but her smaller animals, including a ram with curled horns, were developed with strips of paper moulded over an aluminum foil foundation. This type of armature is more flexible than the classic moulded paper mache, capable of manipulation while the work is going on, to correct a pose or beautify a figure.

The women were so busy that they scarcely looked up from their work. The instructors were equally absorbed.

Visitor Here, Seeking Honeywell Progeny

An interesting gentleman dropped in at the Post Friday. He and his wife had been in the area for about ten days checking the local members of the Honeywell family. Old cemeteries and files were perused to aid in compiling the data desired.

S. W. Honeywell, 656 S. Hague Avenue, Columbus, Ohio, is interested in completing the missing branches of the family tree. He would appreciate hearing from any one who is associated with the Honeywell family.

Goeringer Cow Big Producer

A new record placing fourth in milk production and first in fat production among the 10 highest of the Guernsey breed in her class has just been completed by the registered cow, Lake Louise Hollihelen, a Junior two year-old, owned by Gilbert Farrington, West Willington, Connecticut and bred by Raymond Goeringer, Est., Dallas Pennsylvania.

"Hollihelen", produced 15,825 pounds of milk and 793 pounds of fat in 305-days on two times daily milking.

Penns Woods Notebook

By Jim Hopple

I have had many questions concerning posting "no trespassing" and "no hunting" signs. The Game Commission office here told me that there is no law whatsoever that states that signs must be posted so far apart.

It is unlawful for a person over the age of sixteen to take migratory waterfowl unless he owns and carries on his person a current Federal Migratory Bird Hunting Stamp. To be legal, the owner must sign his name in ink across the face of the stamp.

Bow and arrow and shotguns not larger than ten gauge are legal weapons to take waterfowl. Pump guns must be limited to a three shell capacity. Electric calling devices are not legal in hunting migratory waterfowl.

Hunting license sales for the 1963-64 license year were down 114,000. The resident license sales total of 820,000 including 111,644 of the new junior licenses, was some 106,000 less than the year before. The non-resident total of 40,956 was nearly 8,000 fewer than 1962-63 license sale.

The drop in sales can be attributed to two things. First, was the increased license fees. Second and most significant was the fire ban on hunting last year.

A total of 274,800 antlerless licenses were made available to the 66 deer hunting counties.

WATERPROOF MATCH

Roll the heads of wooden matches in candle wax as you linger over coffee some night. Makes them waterproof.

Penna. Dental Service Corporation Chartered

A charter was granted today in the Court of Common Pleas of Dauphin County by Judge James S. Bowman, the Pennsylvania Dental Service Corporation.

The purpose of the non-profit corporation is to provide on a statewide basis a facility for the group purchase of broad categories of dental services, similar to Blue Cross and Blue Shield in their respective fields of hospital and surgical care.

Pennsylvania is now one of 22 states which has established this progressive health plan.

Dentists as well as clergymen, labor leaders, businessmen and others will serve on the initial board of directors.

With a central office at the 217 State Street, Harrisburg, the new corporation is ready to offer plans of dental coverage to interested groups.

STRICTLY BUSINESS by McFeatters

"I'm glad you don't feel up to going to the office today - the basement needs cleaning."

Why Pay Twice?

You already pay taxes to support Kerr-Mills, a generous federal-state medical program for those over 65 who need it. Why pay again for a plan that isn't needed?

Surprised? Many don't know the details of the Kerr-Mills Law, passed by Congress in 1960. Some call it the Health Opportunity Program for the Elderly.

This program enables Pennsylvania and other states, with federal assistance, to guarantee to every elderly person who needs it the health care he or she requires. Thousands of persons every day are being helped by its broad benefits. More than one of every five hospital patients age 65 and over is receiving benefits from this working program in Pennsylvania.

Yet, those who advocate election-year "medicare" schemes would have you believe that no help exists... that persons over 65 are deprived of medical care because they can't pay for it.

So why pay twice? Find out about the health program you're already supporting.

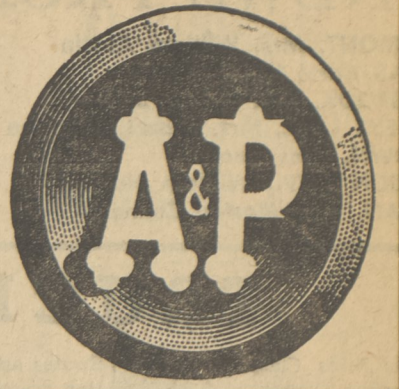

Information on the existing Kerr-Mills Health Opportunity Program for the Elderly can be found in most physicians' offices. Or call your county or state medical society.
