

To Lead Apple Blossom Festival Firemen's Parade At Winchester

Carmel Quinn, beautiful Irish-born songstress, will come to Winchester, Virginia, on April 29 to be Marshal of the Firemen's parade of the 38th Shenandoah Apple Blossom Festival. As Marshal of this first-day event of the three-day springtime celebration, Miss Quinn will lead what is generally considered to be the largest parade of its kind in the country -- a 2 1/2 hour procession. Gleaming fire engines and marching firemen, representing volunteer fire companies in Maryland, Pennsylvania, Virginia, and West Virginia, plus scores of bands, clowns, majorettes, drum and bugle corps and other units from a dozen states will be in the line of march.

Miss Quinn, whose voice is known to millions through her television and stage appearances, and her recordings, arrived in this country in 1954. The red-haired beauty, with a voice often described as "captivating," was introduced to the American public through the Arthur Godfrey Talent Scouts program. She won an immediate following and became one of the "regulars" on the Godfrey hour for CBS-TV. She also made a number of recordings with Godfrey during that period.

In recent years, Miss Quinn appeared on network TV on the "Leave it to the Girls," Jack Paar, Candid Camera, Ed Sullivan and "Tonight" shows. She also appears in supper clubs, the theatre, concerts and summer fairs and records several labels, singing both popular songs and Irish ballads. When she sang for the late President Kennedy, his special request was the ballad, "Galway Bay."

The Dublin-born Miss Quinn, whose humor and wit are as well known as her voice, is only a part-time entertainer. She wants to be known as a homemaker and headliner in that order. She is married to Bill Fuller, an entertainment promoter. The Fullers and their three children, Jane, eight; Michael,

six; Theresa, four, live in Leonia, N. J. "You can't mix marriage and a career on a 50-50 basis, and expect to have a happy marriage," Miss Quinn says. Her policy is to give "75 percent of my time to my home and 25 percent to my career."

The Apple Blossom Firemen's parade will take place at 6 P. M., EST, on April 29.

Earl Fritzes Is K. T. School Director Candidate Has Wide Experience In Financial World

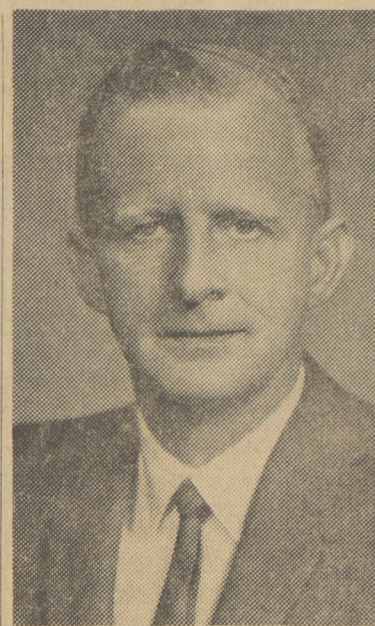

With six children enrolled in the Dallas Area Schools, no one has a better reason for being interested in the best possible future of our educational system than Earl Fritzes, Truckville, independent Republican candidate for school director from Kingston Township.

Coming to this community with his parents, Mr. and Mrs. Henry Fritzes from Wilkes-Barre, at an early age, Mr. Fritzes entered third grade in the Kingston Township Schools, completing his elementary education and graduating from its High School.

The morning after he received his diploma, the young man left immediately for service in World War II, where he was assigned as forward observer in the Pacific Theatre with the U. S. Army.

It was three years later before he returned to this country and again took up the tools of learning. He entered Wilkes College and pursued studies in Finance and Education. Upon graduation in 1948, with a B.S. Degree in Finance, he obtained employment with Dun and Bradstreet in their Wilkes-Barre Branch. Mr. Fritzes is now marking his 17th year with the firm which is constantly in touch with economic trends and wise investments.

During that time his interest in children continued as he reared a family of four boys and two girls.

When he married the former Audrey Campbell of Shavertown, Mr. Fritzes moved from Truckville to E. Center Street, where the couple resided until 1958 when they purchased a home on Cliffside Ave.

His decision to enter the school board contest is based solely on his desire to obtain the best education for our children as economically as possible and his vast experience in the field of finance finds him admirably suited for the job.

Caution: Drivers

"Motorists also must be reminded afresh against driving too close to other vehicles; it takes quite a bit of space to stop an automobile safely and in time. Being too close means possible rear-end crashes and chain-reaction pile-ups. Also:

"Be much more cautious when driving in fog; vision often is close to zero and driving too fast, or too close, or passing without absolute certainty of conditions ahead can mean tragedy.

"Don't drive too long at a time; coffee breaks or off-the-road rests will ease the strain and refresh the senses.

"Regularly inspected and well-kept cars are far safer cars.

"And, finally, drivers, in addition to knowing what to do at all times and in any emergency, should anticipate what the drivers up front and behind might do. Hand signals and flashing turn-indicators are helpful, of course, but care is necessary here too; all signals must be followed with caution.

"In fact, careful driving can be summed up in the phrase: Be Cautious, Always."
