READ THE TRADING POST

Not too long ago, a young Austrian hired a Sprite in West Berlin and drove it to the Eastern Sector. He packed his future mother-in-law in the trunk (astounding amount of room back there) and with the windshield removed, and his beautiful fiancee beside him, drove the gallant little Sprite under the barrier to freedom.

A Sprite always comes through when it counts. It has proven it by winning more races than any other sports car in its class. It's a sneaky, 90-mile-an-hour, racing and touring machine. Admirably suited to AUSTIN HEALEY punching holes in the Berlin Wall or the local traffic.

Adventure and your Sprite await you.
