### Alderson W.S.C.S. Celebrates Alderson Fifth Anniversary

Alderson W.S.C.S. met at the floral flowers. The others present home of Mrs. Raymond Garinger also received mementoes.

A delicious lunch was served to 34 present by the hostesses Mrs. Gilbert Carpenter, Lina Garinger, and Mrs. Raymond Garinger.

The worship service, explaining the significance of the Emblem, was beautifully given in word and song by Mrs. Allan Sorchick, and Mrs. Robert Traver.

Mrs. Raymond Garinger, Vice President, presided at a brief meeting. Reports were given by Helen Hartman, Eleanor Humphrey, and Ruth Murphy.

Mrs. David Morgan, first president of the Society spoke briefly. Patti Murphy and Sharon Leinthal gave interesting reports on their week at Sky Lake.

The formal meeting closed with a candle light ceremony. Twenty-five candles were lighted by Mrs. Sorchick while Mildred Garinger read an original poem, which gave the 25 year history of the society in rhyme.

Sharon and Terry Leinthal sang a song in tribute to the Charter members and past presidents, who were presented with bud vases and

As the borough movement moves into the last stage of petitioning, one can't help but be a little unimpressed by the popular support it is receiving initially. This, for the simple reason that no one really knows whose signature is worth what—even with the impressive list of Lake luminaries who actively support the borough.

Adding to the confusion is the fact that the voters in the special election will not all be the same as the petitioners who start the ball rolling. There's all the difference in the world between the property owner who resides (and what does "reside" mean?), and the lessee who lives year-round and votes at the Lake.

As for definition of terms at the courthouse, both sides will claim friends "downtown." Let's hope so, because the resident freeholder is going to be identified by the court on the basis of "What's good for Harveys Lake," we will bet, rather than depending on a storehouse full of legal precedent.

Afterward, the residents will have a lot of time to decide whether it's best or not.

A happy man, we are told, was Howard Boice, who received a nice appreciation-type present from other members of the Ponderosa, which is a rod and gun club down on the outlet road. They bought a second-hand car in good condition, got it a fresh coat of paint, etc., and presented it to the delighted club stalwart. Congratulations, Mr. Boice.

Things were getting a little complicated around here with dumps and boroughs and sewage and what-not. It made us wonder why the township didn't snap up the idea of Joe Yatsko's landfill out in the woods near Ross Township line. We wondered more about the way the health department put a sudden end to the Lake dump. We wondered out loud. Sudden, nothing, Sharon Whitesell tells us, this has been threatened for something like five years. Open dumps were outlawed long ago.

And maybe it's a good thing. A woman we know says her husband went to the dump not long ago to dump some garbage and was chased back to his car by a large rat. Oh, yeah?

How long does it take to walk the nine miles around Harveys Lake? We understand there is a businessman over at the beach section who does it frequently in an hour and 40 minutes. That's walking. There have been people who ran it also, most illustrious of whom was an Indian (American) who kept in shape during his summer vacation by running, but we don't off hand know his time.

You're an old-timer if you can remember the days when the only places you could get a drink around here were The Onontia, The Rhoades, and Krumbiegle's.

WHAT YOU SHOULD KNOW ABOUT YOUR PRESCRIPTION:

What it is...and what it isn't

Your prescription is an order for a specific medication, for a specific individual, for a specific time. It is originated by your doctor and filled by your Registered Pharmacist. Today's prescription consists of eight specific and essential parts:

1. Date—included to verify the medicine is applicable to a current illness
2. Name and address—so that none but the patient may use the prescription
3. Superscription—"Rx"...the symbol generally believed derived from the Latin "recipe" meaning "take thou."
4. Inscription—the name and quantity of each ingredient prescribed.
5. Subscription—directions to the pharmacist explaining dosage, form and quantity of the pharmaceutical.
6. Signatura—directions to the patient on quantity, timing and method of taking the prescription.
7. Refill information—for use by the pharmacist to facilitate service to the patient.
8. Signature—or initials of the prescribing physician to verify the order.

Your prescription obviously is more than Latin phrases written on a piece of paper. It represents a lifegiving force which enables us all to live longer healthier, happier lives.

For the highest pharmaceutical standards, low prices consistent with quality and the personal attention you can always depend upon, bring your prescriptions to
