WELDERS and FIT-UP MEN

Because of rapid expansion of our Wilkes-Barre manufacturing plant, we have immediate openings for welders and fit-up men.

Welders must be capable of doing ASME quality welding on carbon steel, stainless steel, and aluminum. Knowledge of inert gas welding techniques helpful but not necessary.

Fit-up men must be qualified to do lay-out and setup work on aluminum and stainless steel, structural steel, pressure vessels and pressure piping ranging in size from one quarter inch to twelve inches in diameter. Men to work from blueprints and piping diagrams in lay-out and forming plates, beams, channels, angles, etc. Knowledge of cutting equipment, grinding equipment, and other metal-working tools necessary.
