

# College Bound

by Bruce Hopkins

**From Year To Year**  
 Christmas is over! (Isn't it just amazing what you can discover by reading this column!) I hope yours was a very enjoyable one. Mine certainly was. I received some very nice gifts and there was only one which didn't fit, and that almost does! But now that Christmas is over, we begin to look forward to the end of one year and the beginning of another.

Isn't it funny the way things can change during a year's time? For example, at the beginning of last January I was writing a weekly column called *Dallas Senior High School News*, and now, at the end of the year, I am writing a weekly column called *College Bound*. If you had told me at the beginning of 1965, that before the year ended I would be writing a column called *College Bound*, do you know what I would have said? I would have said, "How do you know so much? What are you, an almanac or something?"

Looking back over the year, I recalled a great many exciting things which have happened to me. I took some of the most interesting one and compiled a list called *A List Of Exciting Things From The Year 1965*. Here is part of that list:

I became 17 years old  
 I graduated from high school  
 I painted a house, a barn, and an outhouse.  
 I painted the house and barn pink, and the outhouse I painted pink with white stripes (really, I did!).  
 I discovered that there was a town in Pennsylvania called Robesonia.  
 I saw Mary Poppins, and liked Julie Andrews.  
 I went to New York City twice, during which time I did such things as tour NBC studio, the Lincoln Center for the Performing Arts, the Empire State Building, and I stood in the middle of Washington Square.  
 I got my first Barbra Streisand album.  
 I opened my first savings account.  
 I closed my first savings account.  
 I ate smoked octopus.  
 I rode a subway.  
 I began my first year in college.  
 I had a sword fight with Jan Feimster.  
 I ate over 200 scrambled eggs.  
 I got chapped lips 27 times.  
 That is just a small portion of the entire list. In addition to doing those exciting things, I became acquainted with many very exciting people. Here are a few of them:

Ralph Hoover, who is exciting because he has the same surname as a famous vacuum cleaner, and also because he is my roommate.  
 Barbara Stricker, who is exciting because she comes from a family of nine children and 44 cows. Also because she lives in Robesonia.  
 Becky Pickle, who is exciting for obvious reasons.  
 Timothy Lavelle, who really isn't all that exciting.  
 Frank Mastroianni, who is exciting because he has the same last name as Marcello Mastroianni, and also because he is the president of the freshman class at BSC.  
 Mary Ella Bacon, who is exciting because she is Ann Woolbert's proctor at Hartwick, and you have to give her a lot of credit for that.  
 Cheryl Dyer who is exciting because she speaks German like a German, and is trying to teach me to speak it. Ach Tung (or something like that).  
 Bobbie Lou Cramer, who is exciting for a number of reasons, one of which is because her mother is

a warthog. No, she wasn't being nasty when she told me that; her mother admitted it!

There are many other people who I could name, but unfortunately I haven't time.

But, obviously, it has been an exciting year for me, and I hope it has been for you too. Now we face a new year and more exciting events. I'm going to start my diary this year. I'm going to call it *My Diary*, and it is going to be full of all the things I do and the people I meet. Imagine, maybe years and years and years from now, somebody will find my diary and they will make a movie called *The Diary of Bruce Hopkins*, and everyone who hears about it will say, "Who in heaven's name is Bruce Hopkins?"

But that's too far in the future. For now, all we can say is, "Happy New Year." There, I said it and I'm glad!

SEE YA!

# Tenth Grade Students Receive High Grade Awards

Thirty-seven students in the tenth grade at Dallas Senior High School were recipients of letters of

commendation for high grades achieved in the National Educational Development Test written in November, 1965.

The NEDT battery is a series of tests in English, social studies, mathematics, natural sciences, and word usage, which have been designed to measure each student's ability to apply basic learning skills rather than his ability to memorize particular facts or specific subject matter.

Booklets explaining the educational implications of the test were issued to each student who wrote the test. These booklets and the test results were given to every student for further educational planning by the parents and students.

**Variation Time**  
 By the time you read this, Christmas will be long past and the last bites of turkey will be disposed of in those horrible turkey sandwiches (and hash, and croquettes, and millions of other ways), but at this writing, just hours away from a deadline, Christmas is still in the future and visions of sugarplums are dancing in my head. (Let's see—there's May, and Mary, and Cora, and . . .)

**Third row:** Gary Williams, Jack Davis, Charles Garris, Allan Brown, Gary Binder, John Anderson, Elizabeth Otto, Lucy Fleming, Charlotte Gelb, Barbara Kyle.

## Christmas Dance

On Saturday, December 17, our annual Student Council Christmas Dance was held in the gymnasium. The theme "Under the Christmas Tree" prevailed in the decorations and spirit. Music was by Bobby Baird's Orchestra. Congratulations to the student council for a job well done.

## No News

No news next week because of vacation (What a great reason!), but we will see you next year. From all of us here to all of you there: Merry Christmas (even though it has passed) and a Happy New Year!

# Bad Bear Season

District Game Protector Philip S. Sloan, Wyoming County, reports: bear season was disappointing to most hunters. Rain and poor visibility on the first day and heavy rain on Saturday morning cut down hunting pressure, resulting in a small kill.

Deer hunters report seeing more bear this year than in a number of previous years. Squirrels seem almost abundant as before the season.

# Bowling News

by Doris R. Mallin

Here goes the last column of the year. And there's not much to shout about in the bowling news this week. Many leagues are absent from the lanes during the holidays. Some pre-bowled earlier in the season and some are going to make the games up later, but all the Friday and Saturday bowlers can be found elsewhere these last two weekends.
