

**DON'T BLAME THE DOCTORS**

by Mrs. Fredric W. Anderson

The ever present hazard of drunken drivers upon our highways calls for drastic action not by the municipalities nor the medical forces of each community but by the legislators who shape the policies to be followed through by our local law enforcement agencies.

No one can blame the doctors for washing their hands of the whole dirty mess which begins when the intoxicated individuals are first brought into their offices.

The medical profession is up to its ears in trying to treat the increasing number of cases needing their attention, its rolls skyrocketing through the tension packed era in which we live and the increased benefits offered by health insurance plans. The doctor of today has little time for relaxation, family or other interests.

The main objection of these highly skilled men is not so much the examination of the inebriated individual at any or all hours but the loss of valuable time in the courts when the case is brought before the presiding magistrate.

Here, attorneys bent on an acquittal, harass and badger the physician in an effort to prove that he has erred in his judgment. A good doctor has no stomach for such an experience. And who can blame him when his thoughts are undoubtedly on a desperately ill patient who needs his services far more.

It is about time that our state governing bodies do something to remedy the existing condition.

A physician's certificate should be ample evidence in any courtroom and the doctors would be more than willing to cooperate if their time was not to be bartered for an appearance at a carnival of wits, in behalf of some character, who cares little if he transgresses upon the rights and well-being of his fellow citizens.

**What Quality Beef Does A&P Sell?**

That's a fair question. But not an easy one to answer because we have our own quality standards, different from any other meat merchant.

These standards don't fit exactly the familiar terms you know for grades of meat. As an example, did you know that some beef, graded U.S. Choice, just doesn't meet our "Super-Right" specifications? It's true! You see... we don't buy by grade. We use our own high standards to bring you the best values.

That doesn't mean we don't approve of such grading—not at all. It just means we're very fussy about the beef we label "Super-Right." It stands to reason we have to be or A&P wouldn't be America's number one meat merchant.

Are "Super-Right" Meats a good reason for shopping A&P?

They're one of many!
