Director Of Department Of Health Gives Medicare Advice To Elderly

Elderly citizens should not pay money for Medicare coverage to individuals posing as representatives of the Social Security Administration, Joseph B. O'Connor, Regional Director of the Department of Health, Education, and Welfare, warned today.

In this most recent racket, which is spreading across the country, Mr. O'Connor said, a con man alleges he is connected with the Social Security Administration and is authorized to sell Medicare insurance policies, or states he can enroll a person over 65 in the Medicare program. He may offer a discount to anyone giving an immediate payment, but in any event will collect what money he can and then disappear.

There have been other rackets at various times in the past including impersonators who have offered sums of money, allegedly representing an increase in social security benefits, as a device to gain entry into homes and find out where money is kept. If the opportunity arises, the purse or wallet containing money is then stolen.

To guard against these deceptions, Mr. O'Connor stressed the following:

1. Those 65 or over receiving social security or railroad retirement benefits will qualify automatically for hospital insurance, and received an application card for medical insurance benefits in the mail in September, October, or November. All others over 65 will have to apply for hospital insurance which they will receive at no cost. They will also have the option of enrolling in the medical insurance program.

2. Hospital and medical care coverage will not be effective until July, 1966, so the \$3.00 monthly payments by individuals for medical insurance benefits will not be

guaranteed until that time.

3. There will be no discount rates of any kind under the medical insurance program.

4. Any contact in which cash is requested should be reported to the local social security district office immediately.

Bona fide social security representatives can identify themselves either thru official cards bearing their pictures, or thru the local social security district office, Mr. O'Connor assured the public. No social security representative, however, is authorized to collect money for Medicare enrollment.

used whenever necessary. The Committee placed the full responsibility of transportation problems upon the traffic manager and drivers who must use their discretion in safety procedures.

Assigned Seats

Dr. Mellman stated that seat assignments have been given to bus drivers and this method will curtail any overcrowding. Mr. LaBerge asked about smoking on the buses. Mr. Kozemchak responded that he thought this had been cleared up but was informed that scattered incidents had been reported. Dr. Mellman stated in many cases the bus drivers smoked before entering their routes and this also filled the transportation vehicles with smoke or the odor which was obnoxious to some of the riders. He also remarked that many of the best students did not indulge in the habit.

In other action the Board accepted the resignation of Nancy R. Benn, Latin instructor, and that of Marcia Inman as secretary to Mr. William A. Austin. Mrs. Blaine Burgert will succeed to the latter position.

Permission was granted Miss Marcella Nagorski to be absent the first three weeks of the fall term. She will visit Africa, India, Burma, Bangkok, Thailand, Malaysia, Hong Kong, Taiwan, Japan, and Honolulu prior to her return.
