This is based on rifle firing, physical training and the G-3 proficiency test.

### Nine Miles Around

by RED CARR

Hardly a week goes by without our ambulance taking two or three patients to the hospital, which is something when you consider that only a few volunteers work at it.

I have never heard them complain, and my guess is that with exception of those days when invalid and X-ray cases stack up so that they just get back to the garage when it's time to go out again, the boys enjoy the work.

Still, you have to think, the ambulance takes them away from their work in daytime, and it would be a lot easier if there were others who helped share the load.

As it stands now, there are three guys who take ninety per cent of the calls, with a fourth who can be relied on when needed, and I don't have to name them, because their names are on the Dallas Post's ambulance logbook every week of the year. When you consider, every week of the year, that mounts up to a lot of time devoted to service of the community, both by the employees and the employers too, although the men try to catch up on their work after hours if they had to be away all day.

Wouldn't it be a good thing if the community got behind this ambulance service a little more, especially the fire company whose name it bears? It has been remarked, that you have to hand it to the firemen of this township, they are right behind the truck when it leaves the garage.

Now let's see them get out from behind the t-v set and volunteer for the ambulance.

### Mothers

Mother's Day we celebrate next Sunday and what a beautiful time of the year is set aside for this special occasion. Mothers are a source of devotion and understanding, one of the most precious gifts bestowed by a benevolent Father.

There is little which remains to be said that hasn't already been written about "Mother".

If she lives up to the demanding role expected of her, what an accomplishment she performs and what a very vital part she plays in establishing our society. Today, however, there is a tendency to find more activities which encroach upon the security she has always offered to her growing family and in this turbulent restless world, Mother is needed at home. Material gifts cannot make up for love and affection and needed discipline. We talk about the teenagers and their problems but who is chiefly responsible?

To be a mother is the greatest privilege any woman can ever desire and the admiration of her children is the most satisfying recompense.

### Clean Up, Fix Up

Everyone will want to get busy about their yards and homes with the big campaign introduced by Kingston Township supervisors about to begin in the very near future. Show them you, too, are proud of the community in which you live.
