Editorially Speaking

Let The Bells Ring Out

Liberty was proclaimed at the time of the Revolutionary War by the ringing of bells, the message carried from hamlet to hamlet, far out into the hinterlands.

It seems peculiarly fitting at this time that bells should again carry the message.

Churches across the Nation are asked to participate in the demonstration, ringing their bells at 2 p.m.. on the Fourth of July.

In these days when the liberty of the individual, the foundation stone of the Constitution and of the Bill of Rights, is being threatened by encroachment of the Federal Government in private affairs, it is well to reflect upon what liberty actually means.

Liberty, not license.

A realization that our country, large and powerful, is made up of a myriad of smaller communities, each with its own precepts, handed down from father to son, a precious heritage.

Not all people believe alike.

Not all people are cast in the same mold.

For some, the call of the home acres. For others, the hum of the city.

There are those in Pennsylvania who hold cherished traditions, going their way quietly, enriching the fields, dedicated to making the earth productive.

The Plain People.

Because they are different, they have been exposed to what amounts to persecution for their faith.

Many of the Amish and the Mennonites have left this state to seek other homes where they could live as they wished, and bring up their children as they wished, taking with them their love and understanding of the soil.

The Government has imposed upon them regulations which they cannot accept, taken from them their means of livelihood by impounding their draft horses. This has made national news.

There are no indigent elderly people in an Amish community. They are cared for by their own.

The government has become so large that it threatens to devour its people.

PEOPLE, not statistics.

Let the bells ring out..

Only **Yesterday** 30 Years Ago

Soldiers bonus, long delayed, showered a quarter million in cash on Dallas as the vets collected.

Health authorities promised to wipe out health hazards at the Lake, and crack down on careless cottagers and campers. The Post was still campaining against the health hazard posed by Toby's Creek, and its foul and stagnant waters (liberally translated, sewage).

New schedule of water rates, increase and metering was to go into effect first of July.

Veterans Association gave awards to Richard Crompton and Marian Frances Jones, Kingston Township eighth graders.

the lead in the Rural League.

Dr. H. A. Brown headed Dallas dren of families on relief up to physical health standards. was ready for nomination of Pres-Union. ident FDR for his second term.

John Sullivan honored the Dallas Borough basketball champs at

a dinner. Landon was the Republican nominee for president, to oppose FDR. 🕁 Reunions: Frear-Parrish, Elston-Died: Mrs. Urinalla G. Durland, 84,

Sweet Valley. Alonzo Keller, 80, Dallas.

Chickens were just the same price as bargain chickens you can get nowadays, 29 cents a pound. Chuck roast was 17 cents, frankfurters 25, hamburg 15.

20 Years Ago

Veterans training school was staffed by H. Lewis Chambers, and Edward Keller, both skilled in agriculture.

Free Methodists in Dallas were preparing to rededicate their church after major improvements. Rev.

James Payne was pastor. Clyde Cooper broke ground for a new dairy building after purchas-

ing the Forty Fort Dairy. He formerly operated Cork Pine Dairy at Lehman.

Dallas Post discontinued its free copies of Posts to soldiers, as the World War emergency was over. It still carried the roster of the men who had been killed or died

in service. OPA registration for landlords was designed to hold rentals in line in the face of overwhelming de-

mand for housing. Housewives were on the rampage against confiscatory taxes on oleomargarine. And they also resented having to color it themselves. It was cheap, it was nourishing, and they proposed to get it without penalty.

From-

Pillar To Post...

Mrs. Robert Stair and Mrs. Robert Lewis, with co-chairman Mrs. Hans Dreher, ask that anybody who can make good home-made candy, bear in mind that the candy booth at the Library Auction needs candy: all kinds, fudge, peanut brittle, sea-foam.

If anybody knows how to make old fashioned pulled taffy, it it a strong drawing card. A lump is guaranteed to keep a child's jaws firmly clamped together, thereby keeping him incommunicado long enough to give his parent's eardrums a rest while they bid on a lawn mower and/or a broken-down rocking chair.

There are people who know how to make the stuff. It has to be pulled while it is still hot enough to scorch the fingers, and it works best with two people, though it can be pulled on a hook fastened to the wall.

There must be plenty of old-timers in the community, folks who can pull taffy and boil down maple sugar into candy.

Hix has a small amount of genuine maple syrup which she will contribute to the cause . . . but not the cause of pancakes. Anybody who gets that maple syrup will have to promise to turn it. into maple candy for the Auction and hot for home consumption.

The lollypop situation is already well in hand. Mrs. Stair says that four Girl Scout troops are working on it.

The sea-foam is simple enough. Sugar and water boiled together until it spins a thread, then beaten into a stiffly whipped egg white. A smidge of instant coffee in the syrup while boiling makes a near-maple flavor. Nuts meats add a delightful touch, added when the mixture is ready to be dropped by the spoonful on waxed paper.

And don't expect an armored truck to pull at your door to collect a box of candy. Bring it yourself. The booth always runs out of home-made candy Saturday afternoon.

And for the baked goods, make up a flock of cupcakes or tiny hand-pies which can be eaten on the wing.

Muffin tins are the right size for hand-pies. The crust slips out easily. Better make them open-face, it's easier. Not a drippy recipe. Pumpkin custard is about right. Don't try to use paper liners for the pies. For the cupcakes, paper liners are superb, making for easy handling.

Anybody want a sure-fire, fool-proof recipe for brown bread, to be eaten hot, dripping with butter, or sliced thin for cream cheese sandwiches when cold? You make it in a bread tin in the oven instead of steaming it in the wash-boiler, and then you tip it upside down on a sheet of brown paper or even an ex-copy of the Dallas Post. It steams itself something noble.

This brown bread stands alone because of its thrift. It was invented by some ingenious housewife at the time of year when the hens were refusing to lay and when the cows had gone dry.

Remember that motto of the State of Maine? "Make it do, use it up, do without."

It is applicable to this brown bread recipe, but don't think it isn't good. It's superior, especially when hot out of the oven with baked beans and home-made chile sauce.

I've already promised to make a loaf for the baked goods counter. It never lets you down, either with or without raisins.

No more cinnamon buns. Let somebody else beat off the crowd. Just try and get a couple pans of cinnamon buns, hot from the oven, up the slope from the auction block to the baked goods. You get mobbed.

Far better to bring something which has been allowed to cool off, and does not send out enchanting aromas.

Degree In English

Annabelle R. Ambrose, daughter of Mr. and Mrs. Francis L. Ambrose, Elmcrest, received her B.A. in English from the Liberal Arts College at Pennsylvania State University. Her parents both attended graduation exercises on Saturday in the Beaver Stadium.

Miss Ambrose studied at the University of Strasbourg in France for the soring term last year. Many courses were given at the Council of Europe. She has travelled extensively in Europe during the summer of 1963, and in 1961-1962 she lived in the Netherlands with three different families, as a member of the International Rotary Exchange Student Program.

1. A. ¥ . She Will Be Back

France fell to its knees and thanked the Allies for deliverance two decades ago at the time of the Invasion. It welcomed the NATO headquarters.

It fattened on the money spent by our soldiers. Now that the enemy is no longer battering at the door, she is entirely willing to dispense with foreign soldiers on her soil (if you can call NATO foreign), and also willing to keep the mammoth installations, the air strips, and the equipment which cannot be moved.

She will be back, clamoring for help.

She will get it, just as she did in the First World War, and in the Second.

But there is no doubt about it, it gets a little tiresome.

Safety Valve

Dear Editor:

Out of curiosity could you tell me whatever happened to that young man in Shavertown who had the initiative to turn in a fire alarm and save the lives of three children from a fiery death. Was he ever cited by the community or newspapers for his deed? With vandalism, juvenile and parental delinquency going rampant in our communities it was a joy to hear of this young man.

Sincerely James Sterling Mountainhome, Pa.
