

Cloverleaf 4-H Club Elects New Officers

Cloverleaf 4-H Club met at Trucksville Methodist Church Educational Building with Pat Holdredge presiding.

The following officers were elected: President, Sheryl Beard; Vice President, Brian Beard; Secretary, Diane Chadwick; Treasurer, Sandy Deusch; Reporters, Shelly Swingle and Evelyn Scott; Song Leader, Pat Holdredge, and Game Leader, Karen Gillis.

A committee was formed to plan the events of the year. Named to the committee are Diane Chadwick, Evelyn Scott, Sandy Deusch, Pat Holdredge, Karen Gillis and Shelly Swingle. Brian Beard is chairman of the committee.

Pat Holdredge explained to members that the club will pay half of the amount for any members attending camp, Leadership school and 4-H Congress.

New members are Alvie Sutton, Cathy Goeringer, Debby Turner, Leslie Goeringer, Joseph Fuller and Ricky Gillis.

Karen Gillis, Shelly Swingle, Laurel Gillis and Pat Holdredge will serve as April refreshment committee.

Also present were Lauren Wills, Mary, Paul and Allen Beard, Bonnie Sutton, Richard Billings, Mrs. Ray Goeringer, visitor, and Mr. and Mrs. Marvin Scott, leaders.

IT PAYS TO ADVERTISE

To Hold Senior Tea

College Misericordia Alumni Association will hold its annual-senior tea Sunday afternoon, April 9, at 2:30, on the college campus.

Miss McDermott is stressing that alumni members planning to attend make their reservations early by calling the alumni office at College Misericordia.

Committee chairmen consist of Lorraine Gutch, decorations; JoAnn Whitman, hospitality; Catherine O'Rourke, publicity; Margaret Sauer, refreshments; Mary Jule Purcell McCarthy and Ruth Purcell McAvoy, invitations; and Sarah Casey Clark, reception.

Alumni members and graduating seniors will meet at Walsh Memorial Auditorium for a program which features Ann Thomas, art instructor at Marywood College, as main speaker. At this time, Katherine McDermott will deliver the welcome address, and Sarah Wagner, alumni president, will receive the associations new members.

A tea will follow in Merrick Hall. Mothers of graduates will serve.

PROJECT 70 GRANT ADMINISTRATOR PROPOSES SMALL PARK AT SUNSET

HEALTH DEPARTMENT COMPLIMENTS EXECUTIVE COMMITTEE ON APPROACH TO BEACH PROBLEM

March 16 the Post published a letter of inquiry addressed to the Bureau of Community Affairs in Harrisburg over the signatures of candidates Roushey and Tobin of the Harveys Lake Borough requesting the latest available report on the status of the proposed Project 70 public bathing beach development at Sunset area, formerly in Lehman Township, now in the new borough.

The same issue of the Post carried a report from last week's Lehman Supervisors' meeting to the effect that the necessary papers were going to Harrisburg on Tuesday, March 14, 1967.

The answer to the candidates inquiry was released to the Post this week as promised and under date of March 8, 1967. Charles W. Tanner, Project 70 Grant Administrator in the Department of Community Affairs, confirms that the earlier report received by the H. L. Borough Executive Committee for the new Borough that the project could probably not meet the requirements of the Health Department for a public bathing beach permit and therefore could not qualify for substantial Project 70 aid.

Upon receipt of Chas. Tanner, Project 70 Grant Administrator's communication the candidates and the Executive Committee contacted the Regional office of the Pennsylvania Department of Health for further clarification of their requirements for permitting operation of a public bathing beach at the lake under the Project 70 proposal.

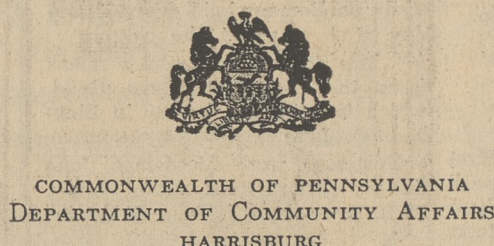

C. R. Kluck, Sanitary Engineer-Facilities at this office advised representatives of the Borough Manager Executive Committee, according to William Hoblak, secretary of the group, that the Health Department requirements for a public beach permit for a Project 70 location were the same as they are for any other public beach operation at the resort, whether it be owned by a corporation, authority, any governmental agency or political subdivision.

In further conversation with Health Department officials it was learned that Lehman Township supervisors and Secretary Michael Godek had been fully aware of and informed concerning these requirements for the proposed Project 70 beach as long ago as September 30, 1965.

mittee for the Borough that the supervisors had not been diligent about meeting the necessary requirements for a proper application for the proposed beach. A copy of this correspondence is reprinted herewith.

It will be noted that this letter also discloses the fact that in the opinion of the Health Department, the first and most important step toward correction of the pollution problem and the possibility of a public beach, namely a feasibility report upon sewage conditions at the lake, was undertaken by the Borough Executive Committee, at its expense (largely contributed by members of the Business Men's and Protective Association groups at the lake) after repeated efforts to persuade the supervisors of either or both townships to undertake this vital step had failed.

Further correspondence between the Health Department and the Regional Supervisor for Project 70 developments in Scranton is also reprinted below under date of May 25, 1966, further proving that in spite of the fact that the Health Department repeatedly made its requirements for a public beach permit crystal clear to both Project 70 officials and Lehman Township supervisors.

COMMONWEALTH OF PENNSYLVANIA DEPARTMENT OF COMMUNITY AFFAIRS HARRISBURG

March 8, 1967

Mr. Ray E. Roushey Republican Candidate for Mayor Pole 98 Harvey's Lake, Pennsylvania 18618

Re: Lehman T. - Harvey's Lake B. (Luzerne)

Dear Candidate:

I am in receipt of your joint letter of February 27, 1967, concerning the status of the Lehman Township Project 70 application.

A site has been proposed bordering Harvey's Lake.

The Project 70 program has tentatively allocated a grant to assist Lehman Township in the acquisition of park or open space land, as was intended under the Project 70 program. The Department of Community Affairs has been given the administrative power to select and approve project sites located in communities in need of park land which will serve its residents.

The Department of Community Affairs and Project 70 staff have inspected the site and approved the concept of the site. It was felt that there will be certain park and aesthetic values in restricting or controlling the future development of this 1/4 acre tract.

To be realistic, it is my thought that there would be certain values in retaining this small tract in open space or park use. We have been informed that the Pennsylvania Department of Health will not permit bathing at this site as long as the water quality of Harvey's Lake remains in its present condition.

I will be glad to meet with you and other officials and residents of Lehman Township and the proposed Harvey's Lake Borough to clarify these points to a greater extent.

Sincerely yours, Charles W. Tanner Project 70 Grant Administrator

Bathing Place Sunset Beach - Harveys Lake Lehman Township Luzerne County

Mr. Edwin A. Sites, Regional Supervisor Bureau of Community Development Pennsylvania Department of Commerce 720 Scranton Life Building Scranton, Pennsylvania

Dear Mr. Sites:

Mr. Michael L. Godek, Secretary Treasurer, Lehman Township Supervisors stopped at this office today and requested that we inform your office, by letter, in regard to the sanitary condition of Harveys Lake, in order that the Township application for a Project 70 Grant can be allocated for the development of Sunset Beach as a public bathing facility.

Subsequent to abatement of individual and collective discharges from some homes and commercial establishments located on and around Harveys Lake, the water quality improved in the 1965 season from the polluted condition found in the 1964 season.

It is our understanding that a consulting engineering firm is in the process of making a study toward producing a feasibility report upon sewage conditions at Harveys Lake.

On May 4, 1965, I was a member of an investigating party in regard to this proposed beach. I made it known to the investigating party that a public beach at Sunset must be approved by the Pennsylvania Department of Health.

It is obvious that the Lehman Township Board of Supervisors need some preliminary engineering work to be done first to ascertain whether or not a public bathing beach could be approved for construction at Sunset.

I trust this information is satisfactory to you in processing the Lehman Township Project 70 Application.

Very truly yours, C. R. Kluck Sanitary Engineer Facilities

Regional Office #1 383 Wyoming Avenue Kingston, Penna. 18704 September 30, 1965

Bathing Place Sunset - Harveys Lake Lehman Township Luzerne County

Mr. Edwin A. Sites, Regional Supervisor Bureau of Community Development Pennsylvania Department of Commerce Room 320, Chamber of Commerce Building, Scranton, Pa.

Dear Mr. Sites:

This will confirm our telephone conversation today concerning a Project 70 Grant Application from Lehman Township to develop a public bathing beach at the Sunset area on Harveys Lake.

In accordance with the Public Bathing Law and the Rules and Regulations of our Department, an application must be filed to request a Permit to approve any public bathing place facility. Since the Township is requesting a Grant, then the Township should file a Bathing Place Application.

After a permit is issued and the bathing place is constructed the permittee must operate the bathing place in accordance with our Department Rules and Regulations.

Even though we informed the Township Supervisors verbally on May 4, 1965 and through a copy of our September 30, 1965 letter, addressed to you concerning Department requirements, we have no knowledge of any effort on the part of Lehman Township Supervisors to initiate or complete required engineering data to support an application for a bathing place permit.

Very truly yours, C. R. Kluck, P.E. Sanitary Engineer - Facilities

It is the position of the Executive Committee and its Borough Manager Committee candidates, that it is regrettable that residents of the area have been misled or deceived by the promises and guarantees of political interests who either did not understand the facts or were unwilling or unable to disclose them to the citizens.

-THE HARVEYS LAKE EXECUTIVE COMMITTEE
