A six months study considering the possibility and feasibility of a merger of the Dallas and Lake-Lehcompleted by both School Boards. The results of the study was an important issue at Dallas School Board meeting Tuesday night. The resolution passed, in its entirety, is elsewhere on this page.

A change in the school calendar was voted on by the Dallas Board. Schools will close on March 4: the last day of school will be on June the teachers March 4th off. He ble will be in Harrisburg that day. Mr. Baur also said that teachers were not going on strike and if legislation is passed on salary increases, the local taxpayers will not

carry the entire burden of salaries. School calendar for the 1968-69 year was approved. The schedule had been submitted to the teachers and had been approved by most of them. The calendar calls for 180 days of student attendance and 186

days of teacher attendance. The board approved issuance of regular professional employee's contracts to William Straitiff and to Mrs. Eleanor Fleming, both of whom completed two years of satisfactory service as temporary professional employees.

Mrs. Jacqueline Oliver Stevens was added to the list of available substitute professional employees. Mrs. John Butler and Mrs. Louis Osloski were added to the list of available substitute cafeteria workers. Robert Grey was added to the list of available bus drivers.

Permission was granted Robert to his teaching duties. High School, West Caldwell, N. J. technical school.

# School Boards Decide No Merger the demonstration, which featured the use of electrical appliances, are from Westmer land Labol to Nos- on March 4, the time to be made

Feelers toward a possible jointure of Dallas and Lake-Lehman Schools were extended a year ago, when Dallas administration proposed the possibility.

This was followed by a survey, carried out by administrators of both districts, with assistance of school board members. The results of the survey were released last fall, for

careful study by both boards of directors. On Tuesday evening, both boards, working simultaneously and keeping in touch by telephone, passed the following resolution:

WHEREAS, for a period of approximately six months the Boards of School Directors of the Dallas and Lake-Lehman School Districts have considered the possibility and feasibility of merger of the two districts, and

WHEREAS, a comprehensive analysis of the present and future operations of both school districts with regard to curriculum, quality of education and cost has been completed and reviewed, and

WHEREAS, it appears that a merger of the two districts would not materially improve the curriculum or quality of education now afforded our students, and that where improvements are called for they can be more economically initiated by the separate districts rather than through merger.

NOW, THEREFORE, IT IS HEREBY RESOLVED by the Board of School Directors of the Dallas and Lake-Lehman Districts, that no action be taken at this time to implement or effect a merger of the Lake-Lehman and Dallas

BE IT FURTHER RESOLVED, that this entire matter be reviewed periodically to determine whether changed circumstances may warrant reconsideration.

in effect as of January 29. Miscellaneous

The safe was moved from the Lake Township building to Lake-Lehman High School, just in time to be damaged by burglars January 20. The safe is old, but Acme Lock Company, which estimated cost of repairs at between \$50 and \$75, said it was an excellent piece of equipment, well worth repairing.

In the same connection, reinforcing of the school vault was recommended by director Slimak, chairman of building and grounds committee. The estimated cost was reported as \$440.

A number of recent burglaries moved the board to pass a resolution making the high school parking lot and driving area off limit from midnight until 7 a.m., to assist police in their nightly check-ups on the property.

Chairmen of committees were asked to call meetings within four

to six weeks.

Edgar Lashford presided.
