

Mount Zion

Last week Roy W. Thomas went exploring overhauled in the Mt. Zion Church to see what the situation might be for some improvements that may be made. Roy has a sense of humor and originality which we have known since he was born; but no one can predict what he is going to say next. He came out with this: "You know, I think by the looks of those big beams that this building must be over a hundred years old!" He was so right!

And the man who installed the oil burner and had to bore some holes in big timbers down below said to Nelson Lewis, "You didn't tell me those timbers were solid oak." To which Nelson replied, "You didn't ask me!" Well there seems no immediate danger of the building collapsing. The building is framed like the old time barns. Which isn't to say the church is a barn of building, for it is beautiful, solid and comfortable.

Last week I wrote that I hoped one or another of the Golden Wedding daffodils would be in bloom this week. At this writing Sunday night there are 10 blossoms already out and more buds swelling. And a red-till is showing color. This Glass House built by a laborer and a dressmaker is a lovely place just now. The zero weather hasn't discouraged the dwellers in it.

Part of my work last week was getting a box packed to ship to Dorothy. I call for careful packing listing the things in the box and the estimated value of each, then tying it up so it will not burst asunder if dropped, only don't drop it! The postal authorities require (and furnish them free) three manila bags, one white dispatch note and a yellow sticker. Ong has to write out a lot of things on each one. Which takes more time than you can imagine. The contents has to be listed. When we write we use (usually) the air form letters now costing 13c, formerly were ten. Plenty of room for a long letter, then fold it up and stick down the flap. However if we want to enclose anything in our letter we have to use envelope paper and pay 25c per 1/2 ounce.

This air-mail correspondence takes about 7 days to go through. The package I sent last week will take two to three months. Not air mail. How eagerly we go to the mail box to see if there is the familiar blue envelope from Congo! That mail box, our immediate connection with Congo 7,000 miles away. God bless the people who pick up and deliver the mail, sort it and hurry it along over land, sea and air.

Ever stop to wonder at the miracle of live viewing of Olympic Games via satellite Telstar! The gathering of news on the news fronts of the world bringing us the

horror of the war, picturing the news man crouching low while telling his story into a microphone for our information, all of this a part of our day by day experience. And one newsmen is telling us that a shell has just exploded and a medic is trying to get to the newsmen's wound to bandage it up, and the newsmen keeps on telling his story into the microphone.

We were guests of Nelson and Mae Lewis Sunday. Mae's sisters Blanche and Nettie were there too. And Mrs. Mary Lewis came down stairs with the help of her cane and joined us at the table. After dinner Cathy showed Mrs. Lewis some pictures we had of the anniversary of the Glass House, and of the poinsettias in the church Christmas Sunday.

Mt. Zion MYF Goes To See "The Bible"

On Saturday last our Mt. Zion young people with their Counsellors and friends attended the movie "The Bible." The following made up the party: Hal Seiple, Ernie Hoover, Wayne Mohr, Gary Dymond, Tom Civiletti, Vincent Civiletti, Joe Sokirka, Jerry McDonald, Bruce Greiner, Kenny Beseker, Herman Otto, Billy Shaffer, Reuben David Emanuel, Ricky Dymond, Ricky King, Michael Hroch, Sunday Stanton Ann Dwyer, Linda Shaffer, Mary Lowe, Dawn Shaffer, Beverly Lowe, Janice King, Mildred Lloyd, Cornelius Hastie, Dick King, Mr. and Mrs. David Burgess, Mr. and Mrs. Charles Merriam, Mr. and Mrs. Jim McDonald, Mr. and Mrs. Gerald Shaffer.

A Terrestrial Nose

Often when Tuffy is snaking me along the road he not only follows the road but is especially interested in the edge of the road. With his nose he is gathering news which means a lot to him but he doesn't relay it to me. So there I am following an expert news-gatherer but I am unable to pass it on to "my" newspaper!

Give Me A Celestial Nose!

There must be some kind of celestial scent which if we had celestial olfaction we could pick up. There must be something over on the other side where Spirit with spirit does meet. Something made Abraham take off from his father's house to establish a people with a sense of One God. Something brought Moses into a certainty of the basic Reality just beyond his curtain of fire. Something even when there seems to be nothing but the breathless silence. There HAS to be something that lives.

Give me a celestial nose to find in the overgrowth of touchables, the branches of a bush, not only a fire that does not go out but a Voice that chases you out of the wilderness down through the smog of air pollution, commerce, crime, war and horror always to gleam and dance in the mind as something of truth to guide and give value to all the days and nights of life now and always, no ending!

CATCHING COLDS
Q. Does chilling after a bath cause colds?
A. Not according to some authorities. Others say that chilling lowers resistance, thus permitting the cold virus (if present in the breathing passages) to become active and produce symptoms of a cold. While it is difficult to prove or disprove the "chilling" theory, proper drying after bathing, and a reasonable waiting period before going out may have some precautionary value.
