

The James Martins Return From Trip

Mr. and Mrs. James Martin, Lehigh Street, Shavertown, have returned home after a five week trip to Texas, Mexico and the East Coast.

The Martins took a new route this time via Missouri to reach Dallas, Tex., where they were the guests of their son, Atty. James Martin, III and family, then on to Harlingen, where Mr. Martin's brother, Walter, resides.

For four delightful days they visited Mexico, including Monterrey and Linares. On their return, they stopped to see the acres of Blue Bonnets, the Texas State Flower, in full bloom; then along Gulf Coast and back to Dallas, Tex., to visit the grandchildren.

The rose center of the world at Tyler, Tex., also proved fascinating as the Martins browsed among the gorgeous varieties. The trip back to Pennsylvania was made this year by way of Shreveport, La., Tallahassee, Fla., the Carolinas, Virginia and Harrisburg.

THAT'S THE BREAKS! TWO IN TWO YEARS

During the summer of 1966, Donna Smith and Linda Howell were roommates at Penn State University while attending Grand Assembly of the Order of Rainbow for Girls. Donna was elected Grand Hope at the Assembly and was guest of honor at a surprise party in their room. In her excitement over all the good things happening to her, Donna was dancing around the room and stubbed her toe - - - and broke it!

Now, two years later, Donna, daughter of Mr. and Mrs. Donald Smith of West Dallas, is a student at the University. Linda, daughter of Mr. and Mrs. Harry Howell, went to spend last weekend with her friends and - - - what did you expect? Just one hour after Linda arrived, Donna ran down the steps to open a door and - - - sure enough! She broke her foot!

Linda has decided not to room with Donna anymore!

Swedish Student Speaks To Women Of Kiwanis

Madeline Mittelton, Rotary Exchange Student from Sweden, captivated her audience when she spoke recently at a meeting of Dallas Women of Kiwanis.

Madeline resides in Stockholm, the capital city. Although she is in her senior year in Dallas Senior High School, she will have three more years of schooling before she receives her diploma. Upon graduation, her education will be equivalent to that of a college junior. She expects to enter the United Nations service as an interpreter upon graduation from college.

Miss Mittelton gave a resume of home government, climate and cultures of her native land. She described Stockholm, as beautiful and approximately the size of Philadelphia. "Sweden, a long, narrow country surrounded by water, reaches into the Arctic Circle where the Midnight Sun appears during the summer months. The population of 5,000,000 people reside in an area similar to that of the state of California. There is much uninhabited space and many woodlands. Paper, iron, mining and fishing are the principle industries and in some villages, centuries old handicrafts are still made."

The Social minded government is expected to be rejected in some election in the near future as it involves very high taxes on those able to pay. The long winters are conducive to skiing and many have cottages on the coasts for residence during the summer months.

She told of the Midsummer Night Festival where the young and the elderly dance around the Maypole while the teenage group enjoys a special dance in the evening aboard a huge raft or dock. Miniskirts are already going out of fashion in Sweden and hemlines are dropping.

Students in the Scandinavian country go to school six days a week and carry a much heavier classroom load. Religion is also included since the country is 98% Lutheran. English is taught from the fourth grade on and is essential.

When asked what impressed her most since coming to the U.S.A., Madeline immediately expressed her amazement at the many large automobiles which are owned by so many families.

She said the general opinion of Americans, through the tourists is not good, but that she has found people in the United States to be most friendly and generous.

Miss Mittelton will leave for home in July.
