

## East Dallas

My chief interest this past week was our East Dallas Methodist Church Rummage sale. I was chairman, so am happy to report that it was a great success. It was our first to be held in the church social hall and we were a little afraid folks would not be able to find it. BUT thanks to "Speak up on the radio", W.B.A.X. letting me announce it every day over a week, we had folks from South Wilkes-Barre; Luzerne; Shavertown; Harveys Lake; Tunknock; Mahogany and even Hunklock's Creek. Not to leave out The Dallas Post; Evening Leader; Independent and Wilkes-Barre Record. I wish to thank all who so willingly helped, they were wonderful.

Thursday while I was at the church, I missed Eddie and Ruth Lewis and their two lovely daughters, from Sarasota, Florida. Eddie is the son of Johnny Lewis (former East Dallas barber) and Marjorie Ruth is the former Ruth Reiffenbury, Beaumont. I tried to call them that evening but their phone was out of order; after getting a busy signal for about an hour the operator told me it was out of order and would report it. I left a note on my door Friday that I was at the church rummage sale but they did not show up. I hope it was not their last day in the area; they may visit me today; I hope.

Mrs. Erue (Bertha) Daniels of Shavertown, daughter of Mr. and Mrs. Nicholas Dickson, Martz Road, is slowly recovering after a very long and serious operation.

Mr. and Mrs. Dickson were very happy last week, when their son Hibberd and family arrived from Indiana to spend a few days with them. This is their first trip home in seventeen years.

Another son, Leslie and his family came in from Rockland, N.Y., and later were joined by another son.

Darryl and his wife from N. J. On Monday the family helped to celebrate their Dad and Mother's 35th, wedding Anniversary.

**Cousins Club**  
I (Irene) was happy to entertain "The Cousins Club" in my home, Saturday, September 14, with dinner at noon, consisting of something every one brought for the planned meal. They meet on each other's birthday, which makes only eight times a year. Present were mesdames Helen Brodie, Elizabeth Thomas, Helen Evans, Jean Somers, Jessie Moore, Mable Lindsay, Myra Carlin (A guest not a cousin) and myself. Margaret Hislop had just returned from the hospital and Anna (Can't think of her name) was away so we missed having their company. Winners at pinocle were High score Jean Somers; Low score Jessie Moore.

They enjoyed cake and beverage later in the afternoon. First time some of them had been to my home (They came from Plains, Wilkes-Barre, Forty-Fort, Shavertown and Harding). I got a kick out of Elizabeth Thomas saying, "They had a Delightful Diversion of Merriment".

I am happy to welcome into the neighborhood, Mr. and Mrs. Walter Dressing and children Walter third, 2 years old and Delzoda 4 years. They are living in Ted Dymond's house in Orange. I was happy to meet them at our Rummage sale. A very lovely family.

My sympathy is extended to Nelson Wilson and Mr. and Mrs. Giles Wilson over the passing of wife Doris and daughter-in-law.

Birthday greetings go to Melinda Bloomer, Judy Edwards, Nancy Goble, Edna Lange, Cindy Dymond Weaver, Janice Brace, Tom and Dorothy Heslop, Elsie Newhart, Elly Siley, Dorothy (Wesley) Moore.

## School Fire Protection, Economical

There are 50 million reasons for making school safe from fire — the nation's elementary and high school students.

The responsibility for school fire protection is not solely that of school administrators, teachers, and parents of students. The general public has a stake in fire-safe schools — if only to protect their tax investment in public education.

School fire protection is economical according to the National Safety Council. The cost of installing protective equipment is more than offset by reduced insurance rates. Within a few years the initial investment can be paid for through the savings in insurance.

What kind of fire protection is needed? Council fire protection specialists recommend:

Installation of automatic sprinkler system.  
Fire extinguishers at key locations.  
A fire alarm warning system.

The installation of a fire alarm warning system alone does not provide enough protection.

In tests conducted by the Los Angeles, California fire department, school buildings which were to be torn down were set on fire. The buildings were representative of all types used for schools, from one to several stories high. An average evacuation time of one minute per floor was established by timing fire drills in the Los Angeles schools.

It was found that some fires spread so rapidly that one minute per floor was not sufficient to evacuate the building safely.

The researchers also learned that even in fire-resistant buildings, there were enough burnable furnishings and other material to let a fire grow large enough to cause dangerous heat and smoke.

While no alarm system was found universally satisfactory, the research group was unable to set a fire that could not be controlled by automatic sprinklers, at least long enough for safe evacuation. Sprinkler systems can keep the fire localized and, in many cases, extinguish it.

Sprinklers, however, are no substitute for other protection, the Council says. Fire extinguishers should remain in schools. They should be the modern stored pressure type rather than the older soda-acid type still found in many schools. In addition to those, dry chemical or carbon dioxide extinguishers should be installed for protection against flammable liquid and electrical fires.

Extinguishers can be used to put out a fire before it creates enough heat to set off the sprinkler.

The installation of sprinkler systems and fire extinguishers also lead to separate reductions in insurance rates.

Protective equipment does not replace the teaching of safety. Parents have the responsibility of teaching their children fire safety as part of daily living, and of making sure the school his child attends is fire-safe.

Nearly all schools have fire drills designed to teach students how to leave the school building in an orderly, safe, and controlled manner without panic.

The National Safety Council recommends the following procedures for fire drills:

A responsible adult should be designated to sound the fire alarm signals.

Definite procedures should be established for every situation that may possibly arise.

Fire alarm signals should have a sound distinctly different from the bells used for normal school purposes.

Drills should be carried out throughout the school year on different days of the week and at different times during the day. This will give the student experience in leaving many work stations and under many "Block-

ed Exit" situations. Laboratory work involving the use of flammable or explosive materials should be carefully supervised. Draperies, curtains and scenery used in auditoriums should be flame resistant. All school wiring should be approved and conform to the National electrical code. Teachers and older students should be taught to know the location of fire extinguishers and how to use them. They should also know how to turn in a fire alarm either by the alarm box or by telephone.

## Acme Markets Launch Educational Projects

Wilkes Barre, Pennsylvania — September 23 — One of the most unusual educational projects ever attempted by a food chain has been announced by Acme Markets, Inc., throughout its trading area. The project involves an effort to interest school children in the duties and cares of the President of the United States and in the workings of the Government.

All Acme Markets, Inc. stores are now offering small plastic figurines of each of the nation's 35 Presidents, hand painted to show exactly how each looked and dressed. In order to permit mounting them as a set, the company also provides a molded reviewing stand to which the figures may be glued. An eight page album, giving a brief biographical sketch of each President, is offered with each reviewing stand.

As a further incentive, Acme Markets, Inc. has sent letters to all

## Idetown

Betty Sutton with Mr. and Mrs. Robert Sutton from New York, having returned from California, spent the weekend with Mr. and Mrs. John Sutton.

Mr. and Mrs. Floyd Wells of Trucksville called on Mr. and Mrs. John Sutton before leaving for Florida, Mrs. Mabel Lamoreux and father, Mr. Schavley and son Wesley of Roaring Brook visited Mr. and Mrs. John Sutton on Sunday.

It was announced that the W.S.C.S. will have their turkey supper in the Churchhouse on Saturday October 26th. Mrs. Dean Shaver is chairman.

public and parochial schools throughout the area announcing an essay contest based on the title "The President as a Leader". The contest is open to school children in the 5th to 8th grades, and the essay may be written about any of the 35 U. S. Presidents. This program received the George Washington Honor Medal Award for 1967 Patriotic Promotions presented by the National and School Awards Jury of the Freedoms Foundation at Valley Forge, Pa.

As prizes for the best essays submitted, Acme Markets, Inc. will award three-day all expense paid trips to Washington, D. C. during Inauguration week in January 1969. The children will fly to the Capitol via American Airlines, for sightseeing, meetings with high level government leaders, and viewing the Inauguration Ceremonies.

The trip will be awarded to 5th, 6th, 7th and 8th grade children, from any school in the area, who submit the best essays. Judging will be done by an impartial committee of educators.
