The honor roll at Lake-Lehman is broken down into two separate factions, scholars and honors. In order to achieve the ultimate in academic superiority, scholars must maintain a 3.5 average in all major and minor subjects. The honors group must receive at least 3.0 average in major subjects, those which meet five periods a week, and a minimum of 2.5 average in those subjects which meet fewer than five times weekly.

Pennsylvania is the 23rd state to enact legislation which will permit the certification of teachers through interstate agreements based on approved teacher education programs, according to Governor Raymond P. Shafer.

Senate Bill 130, signed into law by the Governor, provides that Pennsylvania enter into an "Interstate Agreement on Qualifications of Educational Personnel" so that teachers moving within the several states will be assured of certification to teach in all of them.

Governor Shafer noted that Pennsylvania has developed a "program approval" approach to certification of educators rather than a "counting of

credits" approach. With the approval of teacher preparation programs in colleges and universities by state education departments, states will be able to more proficiently use ex-

perly trained people." Formerly, trained educators had to requalify or become recertified to teach in states other than those in which they received their training.

commemorative stamps on sale

Three commemorative postage stamps are scheduled to be placed on sale during the next few weeks, Dallas postmaster Edward M. Buckley has announced.

The first of these is a six-cent stamp focusing attention on the need for rehabilitation of

those who are crippled. Mark English, Georgetown, Conn., designed the stamp which depicts a boy in a wheel chair, then rising, then almost erect, and finally standing and stepping forward. It will be first placed on sale at Columbus, Ohio, Nov. 20 during the golden anniversary convention of the National Society for Crippled Children and Adults, sometimes known as the Easter Seal Society.

Nov. 21 a new 45-cent special delivery stamp, required to meet the rate which became effective July 14, will be first placed on sale at New York City, N.Y., during the American Stamp Dealers Association National Postage Stamp Show.

A second six-cent stamp, the ninth in the annually issued American Painting series, will be first placed on sale at Boston, Mass., Dec. 3. The stamp depicts "Old Models," by William M. Harnett, which hangs at the Boston Museum of Fine Arts.

Collectors desiring first day cancellations may send addressed envelopes, together with remittance to cover the cost of the stamps to be affixed, to the postmaster in whichever city the stamp is first to be issued.

Hunlock Creek man missing

After a two week investigation, state police at the Schickshiny substation report the whereabouts of a Hunlock Creek man are still unknown.

Trooper Williams said William Francis Bower, 21, RD 1, Hunlock Creek, was first reported missing by his wife Thursday Nov. 6. Police described Mr. Bower as six feet one inch tall, weighing 235 lbs. with brown hair and blue eyes. When last seen he was wearing green dress pants, a light blue shirt and a tan jacket. Investigation of the case continues.

show to sponsor stream cleanup

Sportsmen and outdoor enthusiasts are urged to join in active participation for stream cleanup during 1970 by the Eastern Sports and Outdoor Show. As part of a continuing involvement in conservation and recreational concern, the show will sponsor a basic and hard driving program to promote awareness for and participation in the conditions that demand that a stop be brought to stream pollution.

The show, set for Feb. 9-14, has become an outdoor recreation focal point and acts as a showcase for a 14 state area.

This area is comprised of Pennsylvania, New Jersey, Delaware, Maryland, District of Columbia, Virginia, West Virginia, Ohio, New York, and all of New England. Each of these states has a prime recreational resource of streams, rivers and lakes. The major portion of this vast water resource is now polluted; some of it is beyond reclamation.

The 1970 Eastern Sports and Outdoor Show theme will set the mood and pace to develop a high level of concern for the present and future of stream protection and conservation.
