the money game

by Philip Fitelson

This writer is deviating from the stock market analysis this week but not from The Money Game. Because the needs for new roads in Mountaintop area are so imperative, and because they effect the economy of the Mountaintop area, there is a golden opportunity to come out on top if the officials follow through with the following information:

The Pennsylvania Department of Highways is conducting a highway functional classification and needs study at the request of the United States Bureau of Public Roads. As part of the National Highway Functional Classification and Needs Study (1970-1990), all roads and streets in the Commonwealth will be considered in the determination of road use and improvement costs expected to accrue by the year 1990.

The following meeting, open to officials of all political subdivisions of the Commonwealth, has been scheduled to provide a forum to solicit the review of 1990 population and urban limit estimates and preliminary highway functional classification systems.

The meeting will be held July 7, 1970 at 10:00 a.m. at the Pennsylvania Department of Highways District 4-0 office at Dummore, and includes the counties of Bradford, Lackawanna, Luzerne, Pike, Susquehanna, Wayne and Wyoming.

Additional meetings will be held to include all remaining areas of the State. It is requested that those persons planning to attend notify the Municipal Services Unit of their respective Department of Highways District. For those officials interested in reviewing their area but unable to attend the

scheduled meeting, the maps and statistics will be available in the appropriate District office for a period of two weeks following the District meeting.

A new road is needed between Route 81 at Naungola and the Crestwood Industrial Park—a new road is needed from Boyle's Pond in Rice Township to Route 309 with exit on 309 near the White Spot Custard Stand—and a new widening of road is needed on the Old Hazelton Highway from the Triangle to Route 309 exit below Dementi's with a program to straighten out the twists and turns on this old Pinchot road.

With a good road building program in the Mountaintop area the economy and growth would be greater and larger.

United Fund arrives at \$1,465,000 goal

The Board of Directors and Executive Committee of the Wyoming Valley United Fund met recently at the Fund building for the purpose of arriving at a campaign goal. A. DeWitt Smith, president of the United Fund, presided. Reports were given of the Combined Federal Campaign, the Central Allocations Committee, and the Administration and Finance committee. After a short discussion, the assembled members passed on the goal to be

sought in the 1970-71 campaign for the Wyoming Valley United Fund. Edmund H. Poggie Jr., campaign general chairman of this year's fund drive made the announcement of the goal. He stated, "We are happy, after all this study and soul searching, to have set our Wyoming Valley United Fund campaign goal for 1970-71, at \$1,465,000. Budget requests have been gone over in great detail by the Central Allocations Committee,

and then reduced to a bedrock minimum. We have taken their recommendation and have a realistic goal. Demands from the community are greater than ever, and if we are to be proud of our area, we must provide these services."

Mr. Poggie continued, "We can do this by cooperative effort of all the volunteer workers, thousands of them, and most importantly, the thousands of contributors, workers, corporations and all. There are so many problems of the world today that we can do little about. The United Fund gives us one we can immediately solve.

The fall campaign will begin September 18.
